QUESTAR GAS POSITION

CAD Designer – Design Drafting, D.N. Rose Building, Salt Lake City, Utah

Duties and Responsibilities

Prepare simple to intermediate level design drawings for construction of gas facilities and pipeline projects (meter & Regulator Stations, etc.); maintain good record keeping of design drawings; work under the direction of immediate and lead supervision to carry out drafting assignments with limited latitude in the use of initiative and independent judgment; and perform other duties as assigned.

Work Conditions

Requires: prolonged use of a computer keyboard; May require: working overtime, weekends, and/or holidays for project completion.

Minimum Qualifications

- **Knowledge of:** Computer Aided Drafting (CAD) AutoCAD programs; basic arithmetic (i.e., algebra, geometry, and trigonometry); and standard practices and terminology.

- **Skill in:** AutoCAD, MS Outlook, Word and Excel are required; AutoCAD Plant 3D, AutoCAD Civil 3D are preferred.

- **Ability to:** communicate effectively orally and in writing; read and understand Questar Gas and Questar Pipeline facility drawings, alignment sheets, pre- and post-constructed field notes and surveys; read and decipher field note and survey book information; work independently with minimal supervision; understand and respond to written and oral instructions; see objects at close range; determine the distance and relationship between objects; match and discriminate between colors and intensity; hear and respond to telephone and equipment; be mobile and possess hand dexterity; reach around a computer station; contribute to a positive work environment; be courteous to co-workers and customers, follow directions from supervisor and lead CAD Designers; and refrain from abusive or profane language and behavior in the workplace.

- **Requirements:** regular attendance; two-year associate degree or certificate in Computer Aided Design or drafting from an accredited institution or equivalent professional experience; proficient in the field of drafting and be able to meet reasonable drawing completion deadlines; a valid driver’s license; an acceptable driving record; and adherence to all company policies, including the Questar Corporation Business Ethics and Compliance Policy, and to all applicable industry rules and regulations such as FERC compliance.
