Associate of Science (AS) in Nursing: Please note that all admitted students are encouraged to complete all the additional general education requirements for a full Associate of Science Degree. This will enable a graduating RN student to be eligible to apply for progression into the RN to BSN program. If admitted students only graduate with the AAS Degree (Associate of Applied Science) they will not be in a position to apply for progression to the RN to BSN program. Additional general education / university requirements will be required in order to be eligible to apply to the RN to BSN program.

Although there is a position for every graduate from DATC PN program for the fall 2015 cohort you must meet the 3.0 CUMULATIVE GPA by the application deadline. Although a point system will not be used as there is a position for each and every one of you, please be aware that progression from RN to BSN for Fall 2016 also will have a slot available for you. However, if circumstances change and you do not go on for your RN to BSN right at the time you graduate from this program and you choose to re-apply for a future RN to BSN program offered through Weber State University a point system will apply (although we do try to accommodate all AS (RN) graduates at the time they are graduating (in some rare instances we may have to postpone some to the following semester).

Pathophysiology 2230 (1 point), Microbiology 1113 (1/2 point) and Nutrition 1020 (1/2 point) course(s) done will all earn extra points in the RN to BSN application process so it is important to have these courses as well as needing the credits towards the 120 for the RN to BSN graduation requirement.

Applications are strongly encouraged to meet with an advisor before applying to verify that all prerequisites, etc., are completed. In order for the review to be complete, all transcripts must have been sent to WSU admissions for official review. Students must have applied to and be accepted to Weber State University in order to register for classes.
