Additional general education / university requirements will be required in order to be eligible to apply to the RN to BSN program.

Although there is a position for every graduate from DATC PN program for spring 2016 you must meet the 3.0 CUMULATIVE GPA by the application deadline. Although a point system will not be used as there is a position for each and every one of you, please be aware that progression from RN to BSN for Spring 2017 may use a point system and the following applies (although we do try to accommodate all AS (RN) graduates at the time they are graduating (in some rare instances we may have to postpone some to the following semester):

Pathophysiology 2230 (1 point), Microbiology 1113 (1/2 point) and Nutrition 1020 (1/2 point) course(s) done will all earn extra points in the RN to BSN application process so it is important to have these courses as well as needing the credits towards the 120 for the RN to BSN graduation requirement.

Applicants are strongly encouraged to meet with an advisor before applying to verify that all prerequisites, etc., are completed. In order for the review to be complete, all transcripts must have been sent to WSU admissions for official review. Students must have applied to and be accepted to Weber State University in order to register for classes.
