Carolyn R. Nebeker Art History Scholarship

CRITERIA
The scholarship recipient must have a declared major or minor in the visual arts, have completed foundation level art history courses, and have a 3.5 GPA or higher. Preference will be given to students with an art history minor. Applicants must demonstrate outstanding scholarship in art history as evidenced by course grades, undergraduate research or written papers.

SELECTION PROCESS
The recipient will be chosen by the Department of Visual Arts. The chair will select a committee consisting of art history faculty with at least one studio faculty member. The scholarship should be awarded to one student and the amount of the scholarship will depend on the amount available. The scholarship committee will advise the applicants of the process and the recipient of the reporting needed after receiving the scholarship. If the Visual Arts department creates an Art History major (instead of just a minor) then the Art History majors will be given preference. Applicants will: 1. Travel to and within the countries of Europe for the purpose of art history study. Travel may be with an approved art history study group, such as a university sponsored program, or it may be independent study. 2. Submit a proposal which needs to be endorsed by an art history faculty mentor as to the recipient's aptitude for success. The project proposal must follow guidelines established by the department.

USES
Travel expenses and resource materials related to art history study abroad in Europe. Awarded each year to one student.
