Who is an Editor?
Editors are WSU employees who are considered specialists in their area. Their sole responsibility is assisting their moderator with the creation of definitions.

Who is a Moderator?
WSU employees with this role are usually Data Stewards and are responsible for ensuring that accurate definitions are created and maintained in the Data Cookbook.

Who is a Technical User?
Technical Users are WSU employees who use WSU’s data most often by creating reports and/or dashboards.

What is Data Governance?
Data governance is a quality control discipline for assessing, managing, using, improving, monitoring, maintaining, and protecting organizational information.

What is a Data Governance Council?
The WSU Data Governance Council is a group of individuals consisting of cookbook Moderators and Technical Users, as well as other individuals assigned by the Data Governance Executive Committee. They have been tasked with facilitating a collaborative data governance system at Weber State University.
