Upon admission to Weber State University, Math and English course placement is determined based on students’ prior academic performance and test results. Fees may be charged for assessment tests and/or tutoring. Students may enroll in courses for which they meet the prerequisites. **Individuals placed into developmental courses should complete these classes as soon as possible since they provide foundational skills for success in subsequent courses.** Previous placement standards for eligible students can be found [here](#).

## MATH COURSE PLACEMENT

- Your initial math placement is based on a weighted **rubric** of your high school GPA and Math ACT* scores.
- If you do not have a high school GPA and ACT* you can enroll in Math 0950 OR choose to take a placement test. There are practice self-assessments in math to help you determine your knowledge level at Developmental Math.
  - Take the Math ACCUPLACER◊ test if you expect to place into, or out of, Quantitative Literacy (QL), or place into Math 1060 or Math 1210.
  - Take the Math Mastery** placement test if you expect to place in Math 0970, 0990, or 1010. No test is required to enroll in Math 0950.

Note: For placement based on AP exam results, see **Quantitative Literacy**.

### Level | Placement Criterion | WSU Course Placement
--- | --- | ---
1 | Rubric score of 0.0 to 19.9 | MATH 0950
2 | Rubric score of 20.0 to 21.9 | MATH 0970 or 0990
3 | Rubric score of 22.0 to 24.8 | MATH 1010
4 | Math ACT 23 or higher* or ACCUPLACER® CLM score of 50 to 69 | MATH 1030, 1040, 1050, 1060, or 1080. These courses, with the exception of MATH 1060, can satisfy WSU’s Quantitative Literacy (QL) requirement
5 | ACCUPLACER® CLM score of 70 or higher | Quantitative Literacy (QL) requirement satisfied

* If you took the SAT, rather than the ACT, contact Admissions at 801-626-6743 for your placement.

** You may take the Math Mastery placement test up to two times within a 12 month period. This test will allow you to place up to, but not out of, QL. Exam results expire after 24 months.

◊ You may take the ACCUPLACER test up to 2 times within a 12 month period. ACCUPLACER scores expire after 24 months. If you take ACCUPLACER and do not place in QL, or higher, and want to improve your developmental math placement, you will need to take the Math Mastery placement test for an additional fee.

^ For placement into Math 1030, 1040, 1050, or 1080 the Math ACT score expires after 24 months. Afterwards, for placement, you can choose to take the ACCUPLACER or use the Rubric for an ACT Math score of 22. ACT scores do not expire for developmental math placement.

### MATH PLACEMENT FORMULA

Placement = 9*Weight*(HS GPA) + (1-Weight)*(Math ACT)
ENGLISH COURSE PLACEMENT
Your English course placement is based on your ACT* or ACCUPLACER® scores. If you did not take the ACT*, you should take the Reading Comprehension and Sentence Skills ACCUPLACER® tests to obtain your placement. Non-native English speakers should contact the Learning English for Academic Purposes (LEAP) Program (801-626-6028) for placement testing.

HELPFUL RESOURCES FOR PLACEMENT QUESTIONS
- Visit weber.edu/TestingCenter/math-mastery for Math Mastery placement testing information.
- Visit weber.edu/TestingCenter/accuplacer for WSU ACCUPLACER testing information (including a Distance ACCUPLACER Request form if you are more than 50 miles away from WSU).
- Practice developmental math self-assessments are available at weber.edu/developmentalmath/SelfAssessments.
- Contact the Developmental Math Advisor, Tes Yadete, devmath@weber.edu, (801-626-7451) with questions regarding placement into Math 0950, 0970, 0990, and 1010.
- Contact the Math Department Office (801-626-6095) with questions regarding placement into Quantitative Literacy (QL) courses or go to weber.edu/quantitativeliteracy.
- Contact the English Department (801-626-6251) with questions regarding English course placement.
- Review course descriptions for Math and English courses in the WSU catalog at catalog.weber.edu.
- Find contact information for WSU’s academic advisors at weber.edu/advisors.

COMPLETING YOUR QUANTITATIVE LITERACY AND COMPOSITION GENERAL EDUCATION REQUIREMENTS
Because Math and English skills are necessary to succeed in many other courses, it is important to begin the courses you placed into and work towards completing the Quantitative Literacy (QL) and Composition requirements for your program of study early in your studies. Information about completing these requirements can be found below and in the WSU Catalog at catalog.weber.edu.

QUANTITATIVE LITERACY
There are five⁷ ways to fulfill your QL requirement:
- Earn “C” or better in MATH 1030, 1040, 1050, or 1080 or
- Earn “C” or better in any math course for which either MATH 1050 or 1080 is a prerequisite or
- Score 3 or higher on AP Calculus exam or
- Score 3 or higher on AP Statistics exam or
- Score 70 or higher on Accuplacer College Level Math (CLM)

²If you earned a “C” or better in PHIL 2200 between Spring 2007 and Spring 2013, your QL requirement is also met.

Before choosing one of these options, consult the WSU Catalog (catalog.weber.edu) or your major advisor (weber.edu/advisors). Many programs require you to take a specific QL course to fulfill their program requirements. Depending on your placement, you may need to take one or more prerequisite courses before enrolling in a QL course. Your placement indicates where you need to begin in one of the following QL prerequisite course sequences:
- MATH 0950 → MATH 0990 → MATH 1010 → MATH QL course or
- MATH 0950 → MATH 0970 → MATH 1030

Important note: Once you pass a prerequisite math course, the course is valid for 24 months before it expires as a prerequisite.

COMPOSITION
To fulfill your Composition requirement, complete English 2010 with a “C” grade or better. Some Associate of Applied Science degrees (AAS) only require successful completion of English 1010. Depending on your placement, you may need to take one or more prerequisite courses before enrolling in ENGL 2010. Your placement indicates where you need to begin in the following composition prerequisite course sequence:
- ENGL 0900 → ENGL 0955 → ENGL 1010 → ENGL 2010 or
- ESL courses → ENGL 1010 → ENGL 2010 (for non-native English speakers)
