Title of Study: The Relationship Between Physical Fitness Perceptions and Food Preferences

Experiment Open Date: 3/29/2016    Experiment Close Date: 4/15/2016

Participations Credits: 2 credits

(IRB) Approval Number: 16-PS-05

Time (duration): Approximately 10-15 minutes

Brief Description of Study: Each participant will be asked to complete a survey. The questions on the survey will ask the participant to rate images based on the physical fitness level of people with different body types. Some of the images may be sensitive in nature due to being of people without shirts or in swim attire.

Participation Criteria: Students between the ages of 18-70 years old may participate in this study.

Location: Social Science building, Room 337 or 325

Researchers:
Dr. Aaron Ashley (psychology department)
Carol Morelli (psychology student)
Shalese Gallegos (psychology student)
Oscar Vasquez (psychology student)
David Dean (psychology student)
