PROJECT INFORMATION SHEET

Title of Study: Internet Search Engines and Learning

Experiment Open Date: March 2, 2015  Experiment Close Date: April 15, 2015

(IRB) Approval Number: 15-SS-106

Participation Credits: 4 credits

Time (duration): Approximately 1 hour or less

Brief Description of Study:
You will be asked to work with another person to search for answers to obscure trivia questions on the Internet. You will be searching for the answers for half of the questions, and will also be watching your partner look up the answers to the other half of the questions. You will also be asked search for websites for a specific set of topics given to you within a specific amount of time. You may also be asked some questions about the information you were able to locate using the Internet search engines.

Participation Criteria
You must have normal or corrected-to-normal vision.

Location
The study will take place in various rooms on the 3rd floor of the social sciences building. Please see the sign-up sheets for the exact room for any given day/time. Be sure to make note of the room number for the day/time you sign up.

Researchers:
Shannon McGillivray (psychology department)
Tyson Bryant (psychology student)
Joshua Hunt (psychology student)
Alicia Lee (psychology student)
David Sleight (psychology student)
Blake Tubbs (psychology student)

Questions?
Please contact Dr. Shannon McGillivray at smcgillivray@weber.edu if you have questions. Please include the Study Number in the subject line of the email.
