PROJECT INFORMATION SHEET

Title of Study: Perception of Facial Attractiveness

Experiment Open Date: 11/05/2015 Experiment Close Date: 04/15/2016

(IRB) Approval Number: 15-SS-224

Participation Credits: 3 credits

Time (duration): Approximately 30 minutes

Brief Description of Study:

As a participant in this study you will be asked to complete an online demographics measure, personality test, and rate the level of attractiveness of six photographs using a 10 point rating scale.

The study will be divided into two parts; you will complete the first part of the study on the first day you login to the survey. You will then be randomly assigned to complete the second part of the study either one day, three days, or seven days after completing the first part. An email will be sent to you as a reminder to complete the second part of the study. Both of these sessions are expected to take about 12 minutes each. Three credits will be given after completing both sections of the survey.

Participation Criteria

Students 18 and older may participate in this study.
