Notes: The only acceptable advisement in the GCT program will be done by the program's administrative assistant or the program director.

Please be advised that this map is one of the quickest ways to complete the GCT in Elementary Teaching. It is, by no means, the ONLY way to complete the program. Please see an advisor for alternative plans.

Once the program is completed, you may ask to be admitted into the MED program. All coursework must be completed within six years based on the first semester of coursework.
