Notes: The only acceptable advisement in the MED program will be done by the program's administrative assistant, the program director, or your master's committee chair. Please check with one of these people for advising.

Please be advised that this map is for one of the quickest ways to complete the MED. It is, by no means, the ONLY way to complete the program. Up to four courses a semester can be taken; however, most working teachers take one or two classes a semester.

The entire program must be completed within a six-year timeframe based on the first semester of coursework.
