Construction Manager

We are a small, personable and professional construction company that specializes in custom home building and high-end remodeling in Salt Lake and Park City. We are seeking a construction manager with experience in the field and experience working with a team and subcontractors. Candidates should have construction skills, organization skills, and the ability to professionally communicate with clients. This individual must be able to provide leadership and maintain effective relationships. This applicant should perform promptly, thoroughly and satisfactorily with assigned work.

Duties, Responsibilities & Requirements

- Valid Driver’s License.
- 4 years’ experience.
- Detail oriented, interpersonal skills, ability to problem solve, leadership skills, and ability to multitask.
- Good understanding of scheduling, construction plans, and construction methods.
- Ability to communicate client concerns, problems or complaints.
- Computer Skills
- Maintain good relationships with customers, team, and sub-contractors.
- Knowledge and demonstration of company policies and practices.
- Ability to order, organize, manage and control materials, sub-contractors and equipment within budget guidelines.
- Demonstrate excellent customer service to include: daily communication in reference to billings, change orders, decisions, problem solving and progress.
- Knowledge of technical aspects of construction.
- Examine and inspect work progress, equipment and construction sites to verify safety and to ensure that specifications are met.
- Ability to work independently with minimal supervision.
