Silverpeak Engineering is in Need of a Surveyor/ Drafter

Silverpeak is seeking to fill an opportunity for a surveyor to conduct office and field work as directed by Licensed Land Surveyor. Ideal candidate will demonstrate ability to work well with clients and design team.

Responsibilities:

- Act as a support to the firm’s liaison with local municipalities for LS purposes
- Perform work as assigned by Licensed Land Surveyor
- Use modern technology to help define legal property boundaries
- Develop boundary surveys, boundary adjustments, construction staking, and tentative/final maps
- Develop plats and topographic surveys
- Design using AutoCAD Civil 3D

Qualifications (additional on-the-job training can be provided):

- Ideal candidate will possess at least 1 year of land surveying experience, or drafting & design experience
- Knowledge of field/office surveying methods, practices, techniques, legalities and mathematical procedures for surveying is a plus
- Knowledge of elementary principles and practices of surveying for engineering projects is a plus.
- Ability to understand and interpret legal descriptions and record survey maps; understanding and interpreting engineering plans, diagrams, and notes
- Plan and organize the survey work as a 1 man or 2 man field survey crew to achieve optimum efficiency
- Ability to work effectively in a team environment
- Experience in plan development preferred
- Proven ability to work on a team designing and preparing construction documents for projects
- Strong written and verbal communication skills and comfortable interacting with clients
- Must be self-directed, motivated, and detail-oriented
- Must have valid Driver’s License
