Are you looking for a company with a workplace that is not only fun, but highly dedicated to providing their clients with an exceptional construction experience? Then look no further! Ascent Construction is accepting resumes for a Project Engineer. The Project Engineer assists the Project Manager with schedule preparation, pre-planning and other technical activities to ensure that work installed on the project meets plan and specification requirements.

**Duties and Responsibilities**

- Reviews shop drawings and submittals.
- Review and coordinate subcontractor RFI’s and submittals
- Manage change orders, budget and cost control
- Work with superintendent to develop and maintain project schedule to ensure work is completed on time and under budget.
- Assures compliance by becoming intimately familiar with the assigned project plans and specifications.
- Communicates drawing inconsistencies to the architect.
- Attend and take notes for OAC and subcontractor coordination meetings.
- Source and solicit subcontractors for bid proposals.
- Maintains logs, reflecting the status of shop drawings, requests for clarification, change order requests, and proposal requests.

**Qualifications**

- Bachelor's degree in civil engineering, construction management, or related field, or the equivalent education and experience preferred.
- Adept at reading and interpreting plans and specifications.
- Applicant should be fluent in Microsoft Word and Excel as well as Project, Contractor, and Suretrak.
- Good written and oral communication skills.

This position is full time and includes benefits.
