Can shared influence make a leader more influential? 

Examine the levers leaders use to collaborate, create high quality connections, and persuade others.

Explore the research on emotion, empathy, identity, and compassion while taking a closer look at resilience, grit, motivation, and flow.

Apply leadership theories to explain and predict crucible moments of world leaders while reflecting on and sharing your own struggles and triumphs.

Learn to present anecdotal evidence with a purpose and deliver empirical evidence with a punch as you engage in classroom debates.
