Exploring Wicked Problems

Wicked problems are societal problems that are difficult, if not impossible to solve, because the problem is interconnected with other problems and transdisciplinary in nature.

Register for HNRS 1520 (SS) to examine sociocultural, economic, sustainability, and political frameworks of wicked problems and potential solutions. Choose your own wicked problem to explore!

HNRS 1520
Tuesdays & Thursdays
1:30 p.m. - 2:45 p.m.

Drs. Azenett Garza, Kathleen Cadman, & Barrett Bonella
