Reported Data

Targeted Studies & Analysis

Specialized Department Dashboards

### Reported Data

#### Common Data Set

Annual submission of data that is printed in multiple publications such as College Board, Peterson's College Guide, and U.S. News and World Report.

#### Executive Summary

This report displays demographic, FTE and SCH data for a five-year time span for each of the three semesters. This data is collected from the fall and spring third week files as well as the summer end of term file. This report requires a valid WSU faculty or staff login credentials.

#### Fast Facts

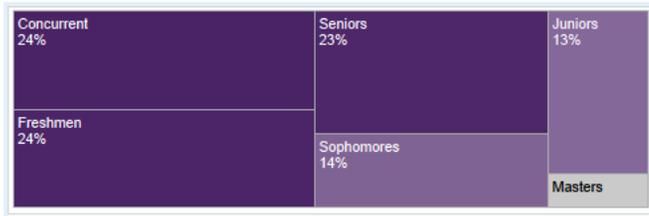

Highlights of the Institutional Profile for a given academic year dating back to 1995. Demographic head counts are taken from the fall third week files.

#### Institutional Profile

Data regarding total enrollment, student demographics, SCH and degrees awarded. Demographic head counts are collected from the fall and spring third week files as well as the summer end of term file.

#### Weekly Enrollment

Provides SCH and FTE totals for three-year time span in order to monitor enrollment. The data for this report is collected Friday evenings at 5:00 p.m.

## TREE MAPS

Many of the charts listed on this site are Tree Maps. These charts list the highest value in the top, left corner and then declines down to the bottom, right corner.

## HOVER OVER INFO

Move your cursor over any bar, line or tree map to see more information. This is a great resource to use for when the box is too small to display a title.

## BUT WAIT-THERE'S MORE

If you see a  to the left or right of the tabs of the report then there are additional tabs available. Simply click on the icon to see the additional tabs or return to the first tab listed.

## DATA COOKBOOK

Not quite sure what the number is reporting? Curious what field is being reported from Banner? Click on the Data Cookbook logo at the top of any page to see full definitions for the report and its data elements.

## ONE PAGE-MANY VIEWS

The majority of the tabs have filters like those on the right which allow you to further refine the data shown on the page. Simply click on the down arrow and select the option(s) you would like displayed.

## PDF IT

Once you have the data displayed just as you want it, scroll to the bottom of the page and click the half box with an arrow over it. This will export the page as a pdf which you can then highlight, print and/or attach to an email.

## KEEP SCROLLING

Each display is designed to give a "three second" view of the data and then the user can scroll down if further detail is needed. The displays are a window within a window so you may need to widen your internet browser window to see the scroll bar for the display.

## STATIC VS. LIVE DATA

All of the data found on the IR Reports & Publication site is "snap-shot" data taken the third Friday of the semester at 5:00 p.m. or at the end of the semester. Data taken from Argos may not align with this data as an Argos report may provide live data which would include any changes made in Banner since the IR snap-shot was taken.
