Part A
School of Nursing Structure & Organization
SECTION II: MISSION STATEMENT
Weber State University
Dumke College of Health Professions
School of Nursing

I. WEBER STATE UNIVERSITY MISSION

Weber State University (WSU) provides associate, baccalaureate, and master degree programs in liberal arts, sciences, technical, and professional fields. Encouraging freedom of expression and valuing diversity, the university provides excellent educational experiences for students through extensive personal contact among faculty, staff, and students in and out of the classroom. Through academic programs, research, artistic expression, public service, and community-based learning, the university serves as an educational, cultural, and economic leader for the region.

II. WSU MISSION CORE THEMES

A. With the purpose of continuously improving the university in pursuit of the mission, the University Planning Council interpreted the mission as having three fundamental themes:
   1. The ACCESS theme directs the university to provide access to academic programs in liberal arts, sciences, and technical and professional fields.
   2. The LEARNING theme directs the university to provide an engaging teaching and learning environment that encourages learning and leads to students’ success.
   3. The COMMUNITY theme directs the university to support and improve the local community through educational, economic, and public service partnerships; and cultural and athletic events.

B. For more detailed information regarding the University's Mission Statement and Core Themes, go to
   http://www.weber.edu/universityplanning/mission_and_core_themes.html

III. SCHOOL OF NURSING VISION AND MISSION

A. SCHOOL OF NURSING VISION STATEMENT:
   Our vision is to educate and prepare distinguished nursing professionals who are recognized for excellence and passionately engaged in the profession of nursing.

B. SCHOOL OF NURSING MISSION STATEMENT:
   The mission of Weber State University School of Nursing is to provide quality and safety education for nursing students who have the knowledge, skills, and attitudes to effectively function in the following areas:

   • Patient-Centered Care
C. CORE VALUES AND STRATEGIC PLAN:
The School of Nursing acknowledges the value of both the mission and vision of Weber State University. The School of Nursing has used the core values, set forth by Weber State University, in creating the School of Nursing strategic plan. The following core values will be incorporated in all aspects of nursing education:
- Learning through personalized experiences and shared inquiry
- Engagement in community
- Access and opportunity for all
- Respect for people and ideas
- Nurturing the potential within every individual

IV. SCHOOL OF NURSING SUPPORT OF WSU CORE VALUES

A. LEARNING THROUGH PERSONALIZED EXPERIENCES AND SHARED INQUIRY:
- Designing curricula and delivery methods to meet the needs of our changing health care system and growing student population
- Providing Graduate Programs to prepare students to enter doctoral education and/or advanced practice roles
- Providing multi-disciplinary learning environments that foster critical-thinking and prepare students to determine and meet the needs of a diverse patient population
- Routinely updating curriculum-to foster knowledge and promote clinical reasoning in the academic and patient-care environment
- Completing a state of the art simulation lab to enhance advanced application of outcomes

B. ENGAGEMENT IN COMMUNITY:
- Fostering of educational partnerships which provide unique learning opportunities for nursing students, especially in the areas of home health, geriatrics, and mental health
- Collaborating with Technical Colleges to enable educational opportunities for the advancement of nursing education
• Responding to the community need to increase the number of Bachelor of Science in Nursing (BSN) graduates to meet the standard put forth in the Future of Nursing Report (2010) of having 80% of the RN working force be BSN prepared by the year 2020
• Actively seeks input and partnerships through the inclusion of a community Advisory Board to act as advisors to the School of Nursing
• Students participate in a variety of community service opportunities across programs

C.  ACCESS AND OPPORTUNITY:
• Meeting the demand for entry-level practice for baccalaureate-prepared nurses by expanding the BSN Program through critically examined methods
• Conducting analytical reflection of face-to-face, hybrid, and online courses and programs that provide education to a variety of adult-learning styles
• Developing and providing scholarships, and proactive committees, that are earmarked to increase diversity within the student population and consequently the diversity within the nursing profession in our community
• Maintaining informative preparation for higher education by adhering to the WSU Stackable Credentials
• Distance Education: WSU School of Nursing offers variable learning environments, which includes: face-to-face, hybrid/technology enhanced, and online classrooms. These are defined by WSU and can be found at the following site: http://wsuonline.weber.edu/faculty/Definitions.htm

D.  RESPECT FOR PEOPLE AND IDEAS:
• Promoting a collegial environment which encourages and recognizes scholarly work
• Implementing a multi-disciplinary learning environment which includes other health care disciplines within the Dumke College of Health Professions
• Creating awareness of diversity and how this awareness benefits the university, the college, the School of Nursing, and the community

E.  NURTURING THE POTENTIAL WITHIN EVERY INDIVIDUAL:
• Promoting and retaining outstanding faculty
• Recruiting and nurturing high-achieving students from all backgrounds
• Developing interdisciplinary activities which broaden the nursing student’s nurturing abilities and perspective of safe patient care
• Conducting ongoing evaluation of learning activities that promote and expand student success

V.  WSU SCHOOL OF NURSING PHILOSOPHY

A.  PHILOSOPHY AND CORE VALUES:
The philosophy of the WSU School of Nursing faculty is consistent with that of the University and the DCHP. The philosophy statements define the faculty’s core values
as they relate to professional nursing education and practice. These core values include: Excellence in nursing education and practice; respect for self and the diversity found within others; the creation of an inclusive environment in which students can learn the practice of nursing; organizational and personal accountability; and the promotion of a learning and nursing practice environment that exhibits integrity in both choice and action.

B. WSU SCHOOL OF NURSING STACKABLE CREDENTIALS:
1. Meeting the complex healthcare needs of a global society requires varying patterns and levels of nursing education and practice. The WSU School of Nursing’s approach to nursing education offers four separate but coordinated programs of study: Associate Degree Nursing, PN to RN (AS/AAS), Bachelor of Science Nursing, and Master of Science Nursing. Each program level prepares the graduate to either practice nursing or provide leadership within increasingly complex roles and broader levels of autonomy. This progression model, or stackable credentials nursing education model, affords the nursing student, each with a unique set of life challenges, the opportunity to engage in lifelong learning and expand within his or her professional, cultural, personal, and social roles.

2. The WSU School of Nursing offers multiple options for undergraduate preparation at the AD, PN-RN, and RN-BSN levels. In addition, the options at the graduate level include, nursing executive, nursing education, and nurse practitioner. The School of Nursing’s primary goals and curricular framework combines coursework in the liberal arts and sciences with those required within the nursing curriculum.

3. Program-specific curricula and outcomes are designed to prepare the graduate to fulfill the roles and responsibilities established by the following national standards and guidelines:
   • Accreditation Commission for Education in Nursing (ACEN)
   • American Association of Colleges of Nursing (AACN)
   • American Nurses Credentialing Center (ANCC)
   • American Nurses Association (ANA)
   • American Organization of Nurse Executives (AONE)
   • National League for Nursing (NLN)
   • Quality and Safety Education for Nurses (QSEN)
   • National Organization of Nurse Practitioner Faculty (NONPF)
   • American Association of Nurse Practitioners (AANP)
SECTION III: OUTCOMES AND GRADUATE COMPETENCIES
Weber State University
Dumke College of Health Professions
School of Nursing

I. SCHOOL OF NURSING OUTCOMES

A. The WSU School of Nursing Program Outcomes are developed to ensure the mission and goals set by the administration and faculty are met.

B. Documentation of outcomes shows the effectiveness of the educational program and serves to guide maintenance and revision of School of Nursing components.

C. Following graduation from WSU SON programs, the following outcomes will be achieved:

Program evaluation demonstrates that students have achieved each end-of-program student learning outcome and each program outcome.

There are School of Nursing program outcomes and student learning outcomes:

SON Program Outcomes
  o Outcome #1: 80% of School of Nursing students will graduate from their programs within 150% of the stated length of the program.
  o Outcome #2: 80% of School of Nursing graduates seeking employment will be involved in role related professional practice within 6-12 months of graduation as reported on the SON Alumni Survey
  o Outcome #3: 80% of those students who take certification/NCLEX licensure exams will pass on the first attempt

SON Program Outcomes will be measured annually through the following methods:

  o Program Completion Rates
  o Employment rates 6 months after graduation
  o NCLEX Scores
  o Certification rates

II. SCHOOL OF NURSING STUDENT LEARNING OUTCOMES

A. The WSU School of Nursing has adopted the following competencies for its undergraduate and graduate programs. These competencies are adopted from the Quality and Safety Education for Nurses Initiative (QSEN).

  o Patient-centered Care: Recognize the patient or designee as the source of control and full partner in providing compassionate and coordinated care based on respect for patients’ preferences, values, and needs.
- **Teamwork and Collaboration**: Function effectively within nursing and interprofessional teams, fostering communication, mutual respect, and shared decision-making to achieve quality patient care.

- **Evidence-based Practice**: Integrate best current evidence with clinical expertise and patient/family preferences and values for delivery of optimal health care.

- **Quality Improvement**: Use data to monitor the outcomes of care processes and use improvement methods to design and test changes to continuously improve the quality and safety of health care systems, including participating in healthcare policy.

- **Patient Safety**: Minimize risk of harm to patients and providers through both system effectiveness and individual performance.

- **Informatics**: Use information and technology to communicate, manage knowledge, mitigate error, and support decision-making.

The SON End of Program Student Learning Outcomes (EPSOL) will be measured annually through the following methods (Refer to Course Maps (Standard 4) for alignment of Course outcomes/units and assignments to SON/End of Program Student Learning Outcomes):

- **Student will report obtainment of Program Level Student Learning Outcomes at or above a 3.0/5.0 on the EOP Survey**
- **80% of ADN students will achieve a 50% or higher score on Kaplan Exam.**
- **90% of students will receive a minimum on a B- or above for aggregate coursework (Course Grades)**
### III. DIFFERENTIATED PROGRAM STUDENT LEARNING OUTCOMES

**SON Program-Leveled Student Outcomes**

</tr>
<tr>
<td>CATEGORY</td>
<td>CONCEPT</td>
<td>DEFINITION</td>
</tr>
<tr>
<td>---------------</td>
<td>---------------------------------</td>
<td>-------------------------------------------------------------------------------------------------------------------------------------------</td>
</tr>
<tr>
<td>Diversity</td>
<td>Recognizing differences among “persons, ideas, values and ethnicities,” while affirming the uniqueness of individuals. (14)</td>
<td></td>
</tr>
<tr>
<td>Family</td>
<td>Two or more individuals who depend on one another for emotional, physical, and/or financial support. (19)</td>
<td></td>
</tr>
<tr>
<td>Grief and Loss</td>
<td>Loss is an actual or potential situation in which something that is valued becomes altered or no longer available. Grief is the subjective emotion and normal response to a loss. (19)</td>
<td></td>
</tr>
<tr>
<td>Self</td>
<td>The sum of mind and body that constitutes the identity of a person. (18)</td>
<td></td>
</tr>
<tr>
<td>Social Functioning</td>
<td>The ability of the individual to interact in the normal or usual way in society; can be used as a measure of quality of care. (19)</td>
<td></td>
</tr>
<tr>
<td>Spirituality</td>
<td>An experience or feeling of being alive, purposeful, and fulfilled with the ability to make sense of life circumstances, beliefs about the universe, feelings of transcendence, joy, hopefulness, and love. (19)</td>
<td></td>
</tr>
<tr>
<td>Stress</td>
<td>A complex experience felt internally that makes a person feel a loss or threat of loss—bodily or mental tension. (7)</td>
<td></td>
</tr>
<tr>
<td>Mood</td>
<td>A sustained emotional state and how one feels subjectively. (19)</td>
<td></td>
</tr>
<tr>
<td>Mood disorders</td>
<td>A group of mental disorders involving a disturbance of mood, accompanied by either a full or partial manic or depressive syndrome that is not due to any other mental disorder. Mood refers to a prolonged emotion that colors the whole psychic life; it generally involves either depression or elation such as manic episode, major depressive episode, bipolar disorders, and depressive disorder (see separate entries for each). (7)</td>
<td></td>
</tr>
<tr>
<td>Violence</td>
<td>Communication or a behavior which threatens or demonstrates harm to self or others. (19)</td>
<td></td>

Revised: 2/28/2017
SECTION I: SCHOOL OF NURSING REQUIREMENTS

I. GENERAL GUIDELINES FOR ALL SCHOOL OF NURSING STUDENTS

A. WEBER STATE UNIVERSITY POLICIES:
   1. WSU Discrimination and Harassment Policy (PPM 3-32):
      http://www.weber.edu/studentaffairs

   2. Disability Statement:
      Any student requiring accommodations or services due to a disability must
      contact Services for Students with Disabilities (SSD) in Room 181 of the
      Student Services Center (or Room 256, Bldg 2 at the Davis Campus). SSD can
      also arrange to provide course materials in alternative formats upon request.
      Contact SSD by phone at 801-626-6413 (Ogden Campus) or 801-395-3442
      (Davis Campus); or by email at ssd@weber.edu

B. Students must pay required tuition and fees by the dates outlined in the WSU Catalog.
   NOTE: Failure to meet these established deadlines may result in the student losing
   his/her place in a specific nursing course/program.

C. Students MAY NOT register for courses scheduled to be taught on a campus
   different from the campus to which they were formally accepted. Students with
   extenuating circumstances may request a change in campus. Permission is granted by
   program director and depends on space availability, etc.

D. Students are covered by Weber State University liability/malpractice insurance once
   they are registered in a course.
   NOTE: Students may not attend/participate in any nursing courses prior to being
   admitted to WSU and registering for their nursing courses.

E. WSU School of Nursing dates and deadlines override Continuing Education, online,
   or other university guidelines.
   NOTE: Prerequisites and/or support courses must be completed and the grades
   posted two (2) weeks prior to the start of the semester.

F. Students will have access to their syllabi in the online learning-management system
   and Student Handbook prior to first day of class.

G. Both the Weber State University and the School of Nursing expect that students study
   2 - 4 hours per week for each credit hour of enrolled courses.

II. ESSENTIAL REQUIREMENTS FOR STUDENT SUCCESS

The School of Nursing Essential Requirements act as a guide for students and faculty to
understand and communicate the functions required for a School of Nursing student. Students are
required to meet all of these essential requirements.
These requirements include functions necessary for starting, continuing and graduating from School of Nursing programs.

If for any reason during the course of the specific program (Associate of Applied Science, Associate of Science, Bachelor of Science or Master of Science), the student is unable to perform any of these functions, they will be academically withdrawn.

After reading and reviewing the essential requirements, the student must sign and return an Essential Requirements form to the School of Nursing before starting the program of study. The form is a permanent part of the School of Nursing student file.

A. ESSENTIAL REQUIREMENTS OF INTELLECT:
   1. Comparing: Judging observable functional, structural, or compositional characteristics (whether similar to or divergent from obvious standards) of data, people, or things.
   2. Copying: Transcribing, entering, or posting data.
   3. Computing: Performing arithmetic operations and reporting on and/or carrying out a prescribed action.
   4. Compiling: Gathering, collating, or classifying information about data, people, or things; including reporting and/or carrying out a prescribed action relevant to the evaluation.
   5. Analyzing: Examining and evaluating data and presentation of alternative actions in relation to the evaluation.
   6. Coordinating: Determining time, place and sequence of operations or action to be taken on the basis or analysis of data. May include prioritizing multiple responsibilities and/or accomplishing the responsibilities simultaneously.
   7. Judgment: Recognizing potentially hazardous materials, equipment, and situations; and proceeding safely in order to minimize risk of injury to patients, self, and nearby individuals.
   8. Synthesizing: Combining or integrating data to discover facts and/or develop knowledge, creative concepts, and/or interpretations.
   9. Negotiating: Exchanging ideas, information, and opinions with others to formulate policies and programs; and/or jointly arrive at decided conclusions and/or solutions.
   10. Adaptability: Ability to be flexible, creative, and adapt to professional and technical changes; the use of time and systematizing actions in order to complete professional and technical tasks within realistic constraints; and providing professional and technical services while experiencing the stresses of task-related uncertainty (e.g., receiving ambiguous directions, being assigned to an ambivalent preceptor), emergent demands (e.g., receiving “stat” test orders), and a distracting environment (e.g., experiencing high noise levels, crowding, complex visual stimuli).

B. ESSENTIAL REQUIREMENTS OF OBSERVATION:
1. **Near Acuity:** Clarity of vision at 20 inches or less with or without correction.
2. **Far Acuity:** Clarity of vision at 20 feet or more with or without correction.
3. **Depth Perception:** Ability to see depth and breadth: Three-dimensional vision.
4. **Color Vision:** Ability to identify and distinguish colors.
5. **Field of Vision:** Ability to see area from right-to-left or up-and-down while fixed on a singular point.
6. **Fine motor skills:** Picking, pinching, or otherwise working primarily with the fingers rather than with the entire hand or arm (e.g., as in “handling”).
7. **Feeling:** Perceiving attributes of objects (such as size, shape, temperature, or texture) by touching an object with the body’s skin, particularly using the skin of fingertips.
8. **Hearing:** Perceiving the nature of sounds, particularly when making fine discriminations in sounds (e.g., such as when making fine adjustments on running engines).

**C. ESSENTIAL REQUIREMENTS OF COMMUNICATION:**

1. **Talking:** Expressing or exchanging ideas by means of the spoken word. Talking is important for those activities in which nursing students must impact oral information to patients or to the public; and in those activities in which students convey detailed or important spoken instructions accurately, loudly, or quickly to other workers.
2. **Hearing:** Perceiving the nature of sounds, particularly used in activities the ability to receive detailed information through oral communications and making fine discriminations in sounds.
3. **Communicating:** Talking with and/or listening to and/or signaling people to convey or exchange information, including giving/receiving assignments and/or directions.
4. **Instructing:** Teaching subject matter to others or training others through explanation, demonstration, and supervised practice; or making recommendations on the basis of technical nursing-specific knowledge.
5. **Interpersonal:** Relating to skills/behaviors used when dealing with individuals who have a range of moods and behaviors; and relating in a tactful, congenial, and personal manner so as not to alienate or antagonize those individuals.
6. **Confidentiality:** Promoting, advocating for, and striving “to protect the health, safety, and rights of the patient” (ANA Code of Ethics, Provision 3, 2010) as a nursing student, including keeping information gathered in practice or clinical-learning environments (e.g., individual patient information, information from clinical facilities, fellow student information) as undisclosed in the nursing student’s personal and professional writings, social media, and general communications with others.

**D. ESSENTIAL REQUIREMENTS OF MOVEMENT:**

1. **Standing**
2. **Walking**
3. **Sitting**
4. **Climbing:** Body agility is emphasized. May be required to ascend or descend something such as a fire escape using feet and legs and/or hands and arms.

5. **Balancing:** Maintaining body equilibrium to prevent falling when performing feats of agility such as assisting with the transfer of patients.

6. **Squatting:** Bending body downward and forward, requiring the full use of the lower extremities and back muscles.

7. **Kneeling, Crouching, and Crawling:** Often needed when assisting patients with dressing, bathing, or other personal cares.
   - **Kneeling:** Bending legs at knees and coming to rest on the knee or knees.
   - **Crouching:** Bending downward and forward by bending legs and spine.
   - **Crawling:** Moving about on hands and knees or hands and feet.

8. **Reaching:** Extending hand(s) and arm(s) in any direction.

9. **Handling:** Seizing, holding, grasping, turning, or otherwise working with the hand or hands.

10. **Physical Restraint:** Seizing, holding, restraining, and/or otherwise subduing violent, assaultive, or physically-threatening persons to defend oneself or prevent injury.

11. **Able to lift/transfer/move up to 50 pounds independently.**

12. **Able to lift and move 51 to 100 pounds with assistance of another person or by using mechanical lifting and moving devices.**

13. **Mechanical Ability:** Able to safely and accurately operate mechanical or powered medical equipment and moving and transferring equipment.

**E. ESSENTIAL REQUIREMENTS RELATED TO THE LEARNING ENVIRONMENT:**

1. **Exposure to Extreme Weather:** Students are expected to travel to the assigned clinical site, which may involve exposure to hot, cold, wet, humid, or windy conditions caused by the weather.

2. **Extreme Heat and/or Cold Non-Weather-related:** In the clinical setting the temperature of the care environment may be adjusted for patient treatment and students would be expected to follow facility policy for appropriate dress and behavior if assigned to these areas.

3. **Wet and/or Humid:** Contact with water or other liquids or exposure to non-weather-related humid conditions.

4. **Atmospheric Conditions:** Exposure to conditions such as noxious odors (e.g., patient-care products, body odors, some dust, powders, mists).

5. **Hazards:** Students may be exposed to situations with a definite risk of bodily injury, such as proximity to moving mechanical parts, electrical current, radiation, and chemicals.

6. **Confined/Restricted Working Environment:** Clinical work is often performed in small patient-care areas. Some patient-care units or nursing facilities are closed or locked providing safety and security for patients or fellow workers.

7. **Noise:** Able to function safely and professionally in a noisy and distracting environment.
Satisfactory completion of the School of Nursing Programs demands the nursing student’s ability to meet the above requirements. If a student is uncertain as to his/her ability to comply with any of these essential functions, please consult with the School of Nursing Admissions and Advancements Committee.

III. STUDENT ACADEMIC ADVISEMENT

A. Each student is assigned a School of Nursing academic advisor upon entering a School of Nursing program. See individual program Part C of the student handbook for advisement process.

IV. STUDENT DOCUMENTATION

A. A confidential, cumulative record (file) is kept on each student.

1. Records of individual student conferences, warnings, disciplinary actions, and other relevant documents will be maintained in the student’s confidential cumulative record.
   a. These documents will be read and signed by the student and faculty prior to each record becoming a part of the student's cumulative record.
   b. Student signature does not establish agreement with information recorded on the form; but does indicate that the student has read and understands information, conditions of warning and/or discipline, and department response if conditions related to warning and/or disciplinary action is/are not fulfilled by student.

2. Students seeking access to the confidential, cumulative file are referred to the student records section of the Weber State University Student Code and the Family Educational Rights and Privacy Act (FERPA) of 1974. Further information can be obtained from the office of the Registrar’s Office.

B. Weber State University School of Nursing partners with a secure documentation management system to provide students an easy process for maintenance and compliance of student documentation. Once the requirements have been fulfilled, the results will be submitted to the School of Nursing. Students are responsible for the associated cost. The package includes:

- Drug Testing
- Criminal Background Check
  o Nationwide Healthcare Fraud and Abuse
  o Nationwide Patriot Act
  o Nationwide Record Indictor with Sex Offender Investigation
  o Social Security Alert
  o Residency History
- Document Manager
- All students are required to comply with CDC requirements for healthcare personnel. All requirements must be uploaded to Castlebranch. Mandatory
Clinical Requirements include:

- **HEPATITIS B REQUIREMENT:**
  - Students must comply with 1 of the following Hepatitis B requirements:
    - Documentation of 3 Hep B immunizations and a positive titer (must be uploaded together)
    - Documentation of Titer only - the series will need to be repeated. Hep B #1 immediate, Hep B #2 1 month later, Hep B #3 5 months later, repeat titer 6 weeks after 3rd
    - Documentation of 3 Hep B immunizations and a negative titer (must be uploaded together) - Hep B booster immediate, repeat titer 6 weeks after booster. If titer comes back negative, continue the series: Hep B #2 immediate, Hep B #3 5 months later, and repeat titer 6 weeks after 3rd Hep B.
    - No titer, series in progress. Hep B #1 immediate, Hep B #2 1 month later, Hep B #3 5 months later, repeat titer 6 weeks after 3rd
    - For #4 initial series in progress, if the titer comes back negative, follow steps for #3.
    - A non-responder is a person who has obtained 6 Hep Bs and 2 negative titers.

- **TB OR QUANTIFERON REQUIREMENT:**
  - Students are required to obtain either a baseline 2-step TB test or the Quantiferon TB blood draw.
  - If you obtain the baseline 2-step TB the 1st TB test can be no earlier than April with the second TB test 1 to 3 weeks later. A 2-step TB is obtained the first TB skin test and have the result read. One week later obtain the second TB skin test and have the result read. Upload both results to Castlebranch.
  - If you have a Quantiferon TB blood draw it must be within the current year.
  - If you've had a prior positive TB test, you must then provide the results of your X-ray.
  - If you've traveled or lived internationally and had to have a BCG (within the past 10 years), you must show proof of BCG and obtain and/or provide the results of your X-ray.

- **MMR REQUIREMENT:**
  - MMR titer or 2 MMR vaccinations.
  - If 2 documented doses of MMR and blood test results are negative or equivocal for measles, mumps, and/or rubella, they should be considered to have presumptive evidence of immunity to measles, mumps, and/or rubella and are not in need of additional MMR doses unless instructed by the healthcare provider.
o **TDAP/TD REQUIREMENT:**
  - Documented proof of TdaP within the last 10 years
  - If over 10 years, either new TdaP or boost with TD

o **VARICELLA REQUIREMENT:**
  - Varicella titer or 2 Varicella vaccinations.
  - You CANNOT self-report or obtain a doctor’s note stating you had chicken pox.

o **FLU SHOT REQUIREMENT:**
  - Flu shot is obtained during the current flu season when available (August through October).

o Any allergies or issues with immunizations, require current written notification from your healthcare provider.

o American Heart Association BLS for Healthcare Provider CPR.

Students will be prompted to upload specific documents required by the School of Nursing.

V. **POLICIES THAT APPLY TO STUDENTS IN PROGRAMS REQUIRING CLINICAL ASSIGNMENT**

A. **OSHA:**
   1. **OSHA Regulations:**
      a. Students may, in the fulfillment of program-required clinical practice, be exposed to bloodborne pathogens. Use of standard precautions (current with CDC guidelines) is a requirement for practice and expected of all students in the clinical setting.
      b. All students are required to comply with Federal Occupational Safety and Health Administration (OSHA) regulations and follow the WSU Bloodborne Pathogen Exposure Control Plan (available online at http://www.weber.edu/EHS/postexposure.html).
      c. Students who are allergic to latex need to notify the Campus Manager or Program Director and the clinical faculty so that provisions can be made.

B. **FUNCTIONAL LIMITATION OR INJURY:**
   1. A student who is functionally limited must notify appropriate nursing faculty and administration as soon as possible. The student and appropriate faculty will meet the program director to develop guidelines delineating the student’s plan to complete course requirements pre- and post-limitation. Student must provide a healthcare provider communication that clears them for both pre- and post-limitation. (i.e. non-elective surgery, pregnancy, etc.)

   See SECTION I, Part II: Functional Requirements for Student Success.
C. HEALTH:

1. Weber State University School of Nursing does not accept responsibility for injury or illness that occurs while the student is enrolled in the School of Nursing. Weber State University does not offer health insurance.

   a. Students are advised to be enrolled in a personal health-insurance plan.
   b. Students who choose not to carry health insurance must sign a waiver (Student Clinical Experience Acknowledgement and Release form).
   c. Students are considered interns while in clinical settings. As such, students are "volunteer workers" of the sponsoring institution of higher education (Weber State University) and are eligible to receive Workers’ Compensation benefits for bloodborne pathogen exposures acquired during clinical time.
   d. Should a student be injured during a clinical experience or have his/her health endangered (such as an exposure to bloodborne pathogens), the student should report the situation immediately to the student’s instructor and to the appropriate cooperating clinical facility/agency personnel.
      1) The appropriate incident report(s) will need to be filed.
      2) Students are responsible for any expenses not covered by Workers’ Compensation due to injury or illness in the college or clinical area.
   e. A student missing a class/lab/clinical experience for any health-related issue may be required to submit a release from their healthcare provider prior to attending further class/lab/clinical experiences.

D. CRIMINAL BACKGROUND CHECK (CBC):

1. Purpose:
   a. The criminal background check screening process has been mandated by the WSU School of Nursing in an effort to more effectively protect the safety and well-being of patients, clients, and residents of those facilities; and is fully supported by the Dumke College of Health Professions Executive Committee, the nursing faculty, and the School of Nursing’s Advisory Committees.
   b. The WSU School of Nursing enters into Affiliation Agreements with multiple healthcare facilities throughout the state. These agreements provide WSU School of Nursing students and faculty authorized access to facility resources and patients. In response to stipulations contained within one or more of these Agreements, the WSU School of Nursing requires that students admitted to a nursing program submit to a national criminal background check.

2. Policy:
   Admission and progression in a WSU School of Nursing Program is contingent upon submission of a satisfactory background check. If the background check reveals a history of criminal actions, the student may not be admitted to or allowed to progress within the nursing program. The student will not be entitled to any refunds of tuition dollars or other fees. In addition, each student is
required to attest, each semester, that their original background check is valid.

When a student interrupts their progression in any nursing program of study that requires clinical assignment or the student is not continuously registered, then the student must repeat and pass the national criminal background check prior to enrolling in any nursing courses.

3. Procedures:
All students who wish to apply for admission to a WSU School of Nursing program are informed in writing on the application that they are required to submit to a national criminal background check.

a. The following written statements, as well as instructions for obtaining the criminal background check, are found in both the admission and acceptance packets:
   “If the record reveals prior criminal convictions, it may affect eligibility to begin and/or remain in a nursing program. Actions which would preclude an individual from admission to or continuance in a nursing program include: aggravated assault, intimate-partner or child abuse, sexual predatory behavior, financially-related crimes such as identity theft, and issue of moral turpitude (reference Utah Department of Professional Licensing). This list is not inclusive of all criminal convictions that will prevent program admission and/or progression, and the School of Nursing reserves the right to review each student’s record on an individual basis.”

b. If background check documents criminal actions, it may be required of the student to obtain official verification that the charge(s) have been expunged.

c. Disclaimer included in the admission packet states: "Students are encouraged to have their criminal record expunged prior to seeking criminal background check."

d. Persons convicted of felonies must refer to the Utah Nurse Practice Act (Utah Code-Title 58: Occupations and Professions, Chapter 31b: Nurse Practice Act, Section 302: Qualifications for licensure or certification, which can be found at http://le.utah.gov/) and may not be allowed to enter/progress in any of the Nursing programs.

e. If a student’s criminal background check reveals evidence of prior convictions, the criminal background check will be reviewed on a case-by-case basis by the Admission and Advancement Committee to determine if the student will be allowed to enter/progress in any of the nursing programs.

f. A student who has committed a felony and successfully petitioned to reduce the conviction to a misdemeanor charge will be reviewed on a case-by-case basis by the Admission and Advancement Committee to determine if the student will be allowed to enter/progress in a Nursing program.

g. A student already progressing in a nursing program is required to report any pending criminal charge(s) at the time that any charge occurs (this
reporting includes throughout the entirety of the student’s nursing educational program).

h. The WSU School of Nursing reserves the right to require a student with a pending criminal charge to withdraw from all nursing classes until the courts have made a decision regarding the criminal actions.

i. If criminal charge(s) are dismissed, a student may be considered for reentry.

j. If the courts determine that the charges are valid and a conviction is made, either misdemeanor or felony, a student’s criminal background check will be reviewed on a case-by-case basis.

k. Information obtained in the criminal background check will be disclosed on a need-to-know basis to instructors and administrators.

E. DRUG SCREEN:

1. Purpose:

a. The drug-screening process has been mandated by the WSU School of Nursing in an effort to more effectively protect the safety and well-being of the patients, clients, and residents of those facilities; and is fully supported by the Dumke College of Health Professions (DCHP) Executive Committee, the nursing faculty, and the School of Nursing’s Advisory Committees.

b. The WSU School of Nursing enters into Affiliation Agreements with multiple healthcare facilities throughout the state. These agreements provide WSU School of Nursing students and faculty authorized access to facility resources and patients. In response to stipulations contained within one or more of these Agreements, the WSU School of Nursing requires students admitted to a nursing program to submit to a urine drug screen analysis for the presence of mind-altering substance(s).

2. Policy:
Admission and progression in a WSU School of Nursing program is contingent upon submission of a urine drug-screen analysis. If the urine drug screen reveals any substances (prescribed or non-prescribed), the student may not be admitted to or allowed to progress within the nursing program. The student will not be entitled to any refunds of tuition dollars or other fees. Each student is required to sign the BCI/Drug Test recertification form each semester.

When a student interrupts their progression in any nursing program of study that requires clinical assignment or the student is not continuously registered, then the student must repeat and pass the Drug Screening prior to enrolling in any nursing courses.

3. Procedure:
All students who wish to apply for admission to WSU School of Nursing program are informed in writing that they are required to submit to, and pass, a
urine drug screen (takes place after admissions).

a. The following written information and instructions are found in the admission and acceptance packets:
   "If drug test reveals the presence of controlled substances (prescribed or non-prescribed), it may affect eligibility to enter as and/or remain a student in a WSU School of Nursing program."

b. Students are provided instructions for obtaining the urine drug screen at an approved testing facility.

d. If a student’s results return indicating a “dilute” sample, testing must be repeated at the student’s expense.

e. A second “dilute” test result will be interpreted as a positive screen, and the student may not be allowed to enter and/or continue in the nursing program.

f. A student who refuses to submit to the urine drug screen or who does not have the screening performed by the date indicated on the admission form may forfeit his/her position in the nursing program.

g. Positive drug screen results are automatically sent to a Medical Review Officer (MRO) for further evaluation and clearance. Failure to proceed with the MRO process or not providing the information requested by the MRO may result in dismissal from the nursing program.

h. The WSU School of Nursing reserves the right to ask any student to submit to additional drug testing. This request will occur if a student appears to be impaired, intoxicated or under the influence of drugs, narcotics, or chemicals. Nursing faculty, in consultation with program administrators and/or additional healthcare professionals, are authorized to make this determination. If it is determined that a student is impaired, the student will be required to leave the classroom, lab, or clinical setting in order to avoid a potential threat or risk to public health, safety, or welfare. Students may not be readmitted to the classroom, lab, or clinical setting until results of the drug screen are reviewed. Arrangements will be made to ensure the safety of the impaired student. The cost of additional drug screens will be the responsibility of the student.

i. A student who wishes to file a grievance in response to the WSU School of Nursing’s decision based on the results of the drug screen is referred to WSU Policy Section 6-23 thru 33: Student Due Process Policy and Procedures.
SECTION II: ACADEMIC STANDARDS, AND SCHOOL OF NURSING RESPONSE TO VIOLATION OF ACADEMIC INTEGRITY POLICY

I. GENERAL GUIDELINES OF ACADEMIC STANDARDS AND VIOLATIONS

A. The WSU School of Nursing (SON) has strict policies applying to any violation of the academic integrity policy in any form; any violation may be subject to an appropriate sanction or penalty. Academic-integrity violations at WSU SON are classified into two levels called nonseparable and separable. Nonseparable violations are less severe violations for which the possible sanctions do not include suspension or expulsion from the SON; separable violations are more severe violations for which the possible sanctions include suspension or expulsion. Whether a given violation is classified as nonseparable or separable depends on a number of factors including: the nature and importance of the academic exercise; the degree of premeditation or planning; the extent of dishonest or malicious intent; the academic experience of the student; and whether the violation is a first-time or repeat offense.

B. Weber State University Student Code and the School of Nursing have a no-tolerance policy for cheating.

C. Students are expected to conduct themselves in a manner free from any suspicion of dishonesty or cheating.

D. PLAGIARISM:
1. The School of Nursing has a no-tolerance plagiarism policy. All student work is expected to be referenced correctly.
2. When using the WSU SON internet-based plagiarism tool, a students’ paper resulting in 21% or greater amount of plagiarism will result in one of the following two actions:
   a. Based on course/assignment details, the student may take the opportunity to read the plagiarism report and rewrite the assignment in order to lower the plagiarism percentage; or
   b. Based on results of the internet-based plagiarism tool, faculty may proceed with the Academic Integrity Policy on violations and sanctions.

II. ACADEMIC STANDARDS

A. GRADING SCALE:
1. The following grading scale is used by the School of Nursing:

<table>
<thead>
<tr>
<th>Percentage</th>
<th>Grade</th>
</tr>
</thead>
<tbody>
<tr>
<td>100-95%</td>
<td>A</td>
</tr>
<tr>
<td>94-90%</td>
<td>A-</td>
</tr>
<tr>
<td>82-80%</td>
<td>B-</td>
</tr>
<tr>
<td>79-77%</td>
<td>C+</td>
</tr>
<tr>
<td>76-73%</td>
<td>C</td>
</tr>
<tr>
<td>69-67%</td>
<td>D+</td>
</tr>
<tr>
<td>66-63%</td>
<td>D</td>
</tr>
<tr>
<td>62-60%</td>
<td>D-</td>
</tr>
</tbody>
</table>
2. Students must have an 80% (B-) or higher in order to pass any nursing course and continue in the nursing program.

3. Students must pass all prerequisite and support courses with a letter grade of “C” or better.

B. Rounding:
   1. Any grade below an 80% (e.g., 79.5%) will not be rounded.
   2. All other grades will be rounded at 0.5 (e.g., 94.5% can be rounded to an A).

C. Evaluation Incentive:
   1. Each semester, course and faculty evaluations will be available online in Chi Tester. Any student who completes both the course and faculty evaluations for a given nursing course will receive a 1% completion incentive that will be added to the student’s final grade for that course. Any student who is at a failing grade at the end of the course will not be allowed the 1% evaluation incentive.

III. Levels of Violations and Sanctions

A. Nonseparable Violations:
   1. Nonseparable violations are less-serious violations of academic integrity. They may occur because of inexperience or lack of understanding of the principles of academic integrity and are often characterized by a relatively low degree of premeditation or planning and the absence of malicious intent on the part of the student committing the violation. These violations are generally quite limited in extent, occur on a minor assignment or quiz, or constitute a small portion of a major assignment and/or represent a small percentage of the total course work.

   2. Below are a few examples of violations that are most often considered to be nonseparable violations, at least when committed by an undergraduate student as a first-time offense. This list is not exhaustive, and classification of a given violation as separable or nonseparable is always heavily dependent on the specific facts and circumstances of the violation.
      - Persistent improper citation without dishonest intent.
      - Plagiarism on a minor assignment or a very limited portion of a major assignment.
      - Unpremeditated cheating on a quiz or minor examination.
      - Unauthorized collaboration with another student on a homework assignment.
      - Citing a source that does not exist or that the student has not read for a minor assignment.
      - Making up a small number of data points on a laboratory exercise.
      - Signing in for another student via attendance sheet or clicker in a course in which attendance counts toward the course grade.

   3. However, an alleged second nonseparable violation shall be treated as an
alleged separable violation. Moreover, some violations that would be considered nonseparable for an undergraduate student may be treated as separable for a graduate student.

4. Sanctions for nonseparable violations include, but are not limited to, one or more of the following, and do not include suspension or expulsion.
   - Required participation in a noncredit workshop or seminar on ethics or academic integrity.
   - An assigned paper or research project related to ethics or academic integrity.
   - A make-up assignment that meets the outcomes of the original assignment.
   - Redoing the assignment with no credit earned for the assignment redo.
   - A failing grade on the assignment.
   - A failing grade for the course.
   - Disciplinary warning or probation.

B. SEPARABLE VIOLATIONS:
   1. Separable violations are very serious violations of academic integrity that affect a more significant portion of the course work compared to nonseparable violations. Separable violations are often characterized by substantial premeditation or planning and clearly dishonest or malicious intent on the part of the student committing the violation.

   2. Below are some examples of violations that are most often considered separable. Again, the list is certainly not exhaustive, and classification of a given violation as separable or nonseparable is always heavily dependent on the exact facts and circumstances of the violation.
      - Any violation of the Nurse Practice Act
      - Any violation of the ANA Code of Ethics
      - A second nonseparable violation
      - Copying another student’s work
      - Plagiarism
      - Copying or using unauthorized materials, devices, or collaboration
      - Having a substitute take an examination
      - Making up or falsifying evidence, data or other source materials for any assignment, including falsification by selectively omitting or altering data that does not support one’s claims or conclusions
      - Facilitating dishonesty by another student on any exam or assignment
      - Intentionally destroying or obstructing another student’s work
      - Knowingly violating research or professional ethics
      - Any violation involving potentially criminal activity

3. Sanctions for separable violations may involve suspension or expulsion from the nursing program.
IV. GUIDELINES

A. The recommendations for sanctions at each level are not binding but are intended as guidelines for WSU School of Nursing. For both nonseparable and separable violations, the severity of the sanction imposed should be proportional to the severity of the violation committed.

B. Violations that may be considered nonseparable for an undergraduate student may be treated as a separable violation for a graduate student.

V. DOCUMENTING AND REPORTING VIOLATIONS

A. All sanctions, whether nonseparable or separable, will be documented and reported in the following manner:

1. Nonseparable:
   a. A meeting will be held between the involved faculty, the student with whom there is a problem, and (as needed) the nursing program director or campus facilitator.
   b. Faculty will document the violation on the WSU School of Nursing Academic/Behavioral Documentation Form.
   c. All nonseparable violations will be reported to the nursing program director with appropriate (Academic/Behavioral Documentation form) paperwork.
   d. Follow-up with the student is completed by SON administration.

2. Separable:
   a. When a faculty identifies an issue with separable violations, additional faculty will evaluate the issue.
   b. A meeting (setting to be determined by program director) will be held between the involved faculty, the student with whom there is an alleged violation and the nursing program director.
   c. Faculty will document the violation using the WSU School of Nursing Academic/Behavioral Documentation Form, which will be maintained in the School of Nursing student file.
   d. Program Director will bring the separable violation to SON Chair to determine plan of action.
   e. Follow-up with the student is completed by SON administration.
SECTION III: PROFESSIONAL CONDUCT/BEHAVIOR

I. GENERAL PROFESSIONALISM EXPECTATIONS

A. In addition to content knowledge, it is important for nursing students to develop professional behaviors, attitudes, and values. Failure in any of these endeavors will result in poor nursing care being provided to vulnerable populations.

As such, development of these behaviors, attitudes, and values will be part of the earned grade in both nursing theory and clinical courses. Failure in this development will negatively impact course grades and may result in the student failing the course.

B. Patient Safety and Student Engagement:
   For patient safety, students should not work the night shift prior to any daytime laboratory or clinical experience, or work the previous day shift prior to an evening or nighttime clinical experience. This requirement must also be followed during the entire residency and preceptorship experience. In addition, students are expected to be unimpaired, attentive, and engaged in classroom, lab, and clinical settings.

C. Technology use in the classroom, laboratory, and clinical setting (cell phones, tablets, laptops, etc.):
   - Cell phones, tablets, and laptops are not acceptable unless approved by the facility or faculty.

II. SON COMPETENCIES and EXPECTED PROFESSIONAL CONDUCT/BEHAVIORS

A. PATIENT-CENTERED CARE:
   1. Respect and encourage patient values.
   2. Seek learning opportunities with patients who represent all aspects of human diversity.
   3. Recognize personal attitudes about working with patients from different ethnic, cultural, and social backgrounds.
   4. Support patient-centered care for individuals and groups whose values differ from own.
   5. Recognize boundaries of therapeutic relationships.
   6. Show proper courtesy.
   7. Exhibit positive attitude including enthusiasm, motivation, dedication, commitment, showing initiative, and showing an appropriate sense of humor.
   8. Empower patients and families appropriately.
   9. Attend all clinicals, labs, and classes on time; complete assignments on time. Do not leave clinical without faculty authorization.
   10. Maintain professional attire including appropriate uniform, shoes, etc. When
appropriate, all students, while in university-sponsored clinical activities, will wear the required uniform designated by the School of Nursing. All uniforms must be neat and clean. If a difference exists between WSU SON policies and facility policies, the WSU SON will conform to the facility policies. Students are expected to comply with facility expectations. Even when nurses in the facilities do not comply with facility expectations, students must comply with both WSU School of Nursing Program and facility expectations.

a. The officially-designated picture ID name tag is required as part of the uniform and must be purchased by students. Some facilities require facility IDs to be worn in addition to School of Nursing IDs.
b. Name tag(s) must be visible and placed on the top half of the chest while in the clinical setting.
c. Students wishing to wear a shirt under their scrub top must comply with the following guidelines:
   1) The shirt color must be solid white, purple (approved), grey, or black.
   2) The shirt must not have any logos or printing on it.
d. Students are not permitted to wear sweatshirts or hoodies, over their nursing uniform.
e. OSHA requires that shoes must be leather or leather-like material that can be wiped clean in the event of an exposure, or the shoe must be covered with impermeable shoe covers. No open-toed, open-backed shoes or shoes with holes will be permitted.

11. Grooming and personal hygiene are an essential part of professional behavior. Physical appearance is to be neat and clean. A student may be asked to leave the facility at the discretion of the faculty for any issues concerning grooming or hygiene.

a. Clothing should not have any holes, rips, or tears.
b. Do not wear perfume or colognes.
c. Visible tattoos and body piercings must be covered while in clinical if required by the facility.
d. Hairstyles are to be conservative, natural-looking, clean, and neat; and should not inadvertently make contact with patients.
   1) Hair longer than shoulder-length must be securely pulled back when attending clinical.
   2) Mustaches and beards should be short, clean, and neatly trimmed.
e. Students should maintain short, clean fingernails. No artificial nails, wraps, or any type of nail polish are allowed.

B. TEAMWORK AND COLLABORATION:
1. Demonstrate awareness of own strengths and limitations as a team member.
2. Value perspectives and expertise of all health-team members.
3. Value different styles of communication used by patients, families, and peers.
4. Contribute to resolution of conflict and disagreement.
5. Be open to ideas, feedback, and constructive criticism.
6. Demonstrate professional interpersonal skills.
7. Take responsibility for own academic performance.
8. While in the classroom, laboratory, and clinical settings, be respectful toward faculty and classmates.
   a. Keep cell phones turned off.
   b. When working online, refrain from using online as a forum to complain about other students, faculty, or the nursing Program.
   c. Do not use attacking or demeaning comments when reviewing work of peers.
   d. All online comments and postings should be done in a professional manner.

C. EVIDENCE-BASED PRACTICE:
1. Value the need for continuous improvement in clinical practice based on new knowledge.
2. Acknowledge own limitations in knowledge and clinical expertise.
3. Seek appropriate help as needed.

D. QUALITY IMPROVEMENT:
1. Value own and others’ contributions to outcomes of care.
2. Identify gaps between local and best practice.
3. Seek supplemental learning opportunities.
4. Assume personal responsibility for actions and consequences.

E. SAFETY:
1. Demonstrate effective use of technology to support safety and quality.
2. Consistently use strategies to reduce risk of harm to self and others.
3. Students are not permitted to transport patients via private vehicles per WSU legal counsel.
   a. If the student does not comply with this policy, the student will assume full liability if an incident occurs.
   b. Violation of this policy will result in dismissal from the nursing program.
4. Children are not allowed in classes, labs, or clinical facilities.
5. The nursing student is expected to acknowledge and comply with the administrative authority of the assigned clinical faculty while practicing in the clinical setting.

F. INFORMATICS:
2. PROTECT CONFIDENTIALITY.
   a. No pictures will be taken while in a school setting and are not legally allowed to be uploaded to any social media, EVER. This requirement includes no picture-taking in classes, clinical, or lab, or of other classmates. Any picture taken while at a WSU student role or setting requires a signed photo release.
   b. Confidentiality includes protecting ALL patient information.
   c. Confidentiality extends to protecting the student-learning environment.
III. SCHOOL OF NURSING RESPONSE TO VIOLATION OF PROFESSIONAL CONDUCT/BEHAVIOR

A. When behaviors, attitudes, and values are found to be inconsistent with the professional expectations of the School of Nursing, the following actions will be taken:

1. **First Offense**: Student and faculty member will meet. The faculty will identify problematic behavior, help the student identify ways to improve, and provide documentation to Program Directors using the Academic/Behavioral Documentation Form. The faculty will also review appropriate professional behaviors as outlined in the WSU Nursing Student Handbook and clarify any concerns the student may have.

2. **Second Offense** (whether a repeat of the previous problematic behavior or as a result of new concerns): A meeting with student, faculty, and Program Director/Campus Facilitator will be scheduled. The faculty will identify problematic behavior, help the student identify ways to improve, and provide documentation to Program Directors using the Academic/Behavioral Documentation Form. Program Directors will maintain a file on the student for the remainder of that student’s academic tenure in the WSU School of Nursing.

3. **Third Offense** (whether a repeat of the previous problematic behavior or as a result of new concerns): A face-to-face meeting with student, faculty, and Program Director/Campus Facilitator will be scheduled. The faculty will identify problematic behavior, help the student identify ways to improve, and provide documentation to Program Directors and SON Chair using the Academic/Behavioral Documentation Form. Program Directors will maintain a file on the student for the remainder of that student’s academic tenure in the WSU School of Nursing.

B. Students are expected to adhere to all policies in the WSU School of Nursing Student Handbook and WSU Student Code found in the University Policies and Procedures Manual (PPM).

C. School of Nursing Competency information is adapted from the following guidelines: Quality and Safety Education for Nurses. (2011). Retrieved from http://www.qsen.org/

IV. UNPROFESSIONAL CONDUCT RELATED TO STUDENT PRACTICE OF NURSING

A. Students are also held responsible for professional behavior as set forth by the Utah Nurse Practice Act (Utah Code-Title 58: Occupations and Professions, Chapter 31b: Nurse Practice Act), which can be found at http://le.utah.gov/xcode/Title58/Chapter31B/58-31b.html
SECTION IV: UNSATISFACTORY STUDENT PERFORMANCE / DUE PROCESS

I. READMISSION/REAPPLICATION/LEAVE OF ABSENCE/DISMISSAL FROM PROGRAM

A. READMISSION TO A NURSING PROGRAM:
   1. Students who have been terminated or who have officially withdrawn from a nursing program may be considered for readmission within the following program-completion guidelines. Consideration for readmission to a nursing program requires a student to submit a letter requesting readmission to the program prior to application deadline. The letter requesting consideration for readmission must be addressed to the School of Nursing Admissions and Advancement Committee. Each case is considered individually, and a student is not guaranteed readmission.

   2. Readmission to a specific nursing level of a nursing program is considered under the following conditions:
      a. A student in good academic standing who voluntarily withdraws from a program will be granted inactive status and considered for readmission by the Admissions and Advancement Committee. Readmission to a nursing program is not guaranteed and will be granted on a space-available basis.
      b. Students who have been placed on an involuntary Leave of Absence from a program may request to resume program progression at the earliest possible time. Each student's case will be reviewed by the Admissions & Advancement Committee only after receipt of all documentation requested of the student. There will be no guarantee of placement at the students’ previously admitted campus.
      c. A student experiencing a non-disciplinary Leave of Absence will be permitted, upon resolution of circumstances that prompted the non-disciplinary Leave of Absence, to resume program progression at the earliest opportunity (progression based on space availability).

   3. Students enrolled in nursing programs that require clinical assignments who exit a nursing program will need to repeat the drug screen and background check prior to readmission.

B. REAPPLICATION TO A NURSING PROGRAM:

   - Students who fail two (2) or more courses must apply for admission through the standard application process.

C. LEAVE OF ABSENCE FROM A NURSING PROGRAM:
   1. Leave of absence from the School of Nursing may include but is not limited to the following with approval from the Admissions and Advancement Committee:
      a. Illness
      b. Family matters
c. Active-duty commitment
d. Religious commitment
e. Financial difficulties

D. DISMISSAL FROM THE NURSING PROGRAM:
   1. Dismissal from the School of Nursing may include but is not limited to the following:
      a. Failure of two (2) or more courses. An unofficial withdrawal (UW) grade constitutes failure of a course.
      b. Terminated for cause.
      c. Unethical or unsafe conduct.

II. WEBER STATE UNIVERSITY STUDENT DUE-PROCESS POLICY (PPM 6-22)

   A. The purpose of due process is to afford students all rights guaranteed to citizens by the Constitution and laws of the United States and the state of Utah. Students are obliged to obey these laws as well as rules and regulations of Weber State University and recognized standards of the program and profession for which they are being educated.

   B. Problems between a student and the University generally are in the areas of academics or misconduct. Students should refer to the Weber State University Policy and Procedure Manual (6-22) http://www.weber.edu/ppm/Policies/6-22_StudentCode.html when confronted with concerns about their rights and appropriate due-process procedure.

   C. Students are encouraged to consult with their faculty when they feel they are having problems meeting nursing-program goals, objectives, or academic requirements.

III. PROCESS OF RESOLUTION

   A. The WSU Policy & Procedure Manual (6-22) http://www.weber.edu/ppm/Policies/6-22_StudentCode.html provides students the opportunity to appeal decisions concerning clinical/academic performance sanctions and/or misconduct warning.

   1. Informal Resolution:
      a. Initial conference with faculty.
      b. If no resolution can be reached, referral of problem to Program Level Director/Campus Facilitator.
      c. If no resolution can be reached, referral of problem to School of Nursing Chair.
      d. If no resolution can be reached, referral of problem to Dean, Dumke College of Health Professions.
      e. If an informal resolution cannot be reached, any party in the dispute may request a formal appeal.
2. **Formal Appeal:**
a. Contact the Due Process Officer and initiate the hearing process. See WSU Policy & Procedure Manual or check http://www.weber.edu/ppm/Policies/6-22_StudentCode.html
SECTION V: RESOURCES FOR STUDENT SUPPORT

I. AVAILABLE RESOURCES

A. The following resources are available to all WSU School of Nursing students [http://www.weber.edu/studentaffairs](http://www.weber.edu/studentaffairs). Outreach student access is provided through cooperative agreements with local educational and/or community resources. Student communication and/or information exchange is available to all students via the Internet.

1. **Weber State Wildcat Email Account:**
   a. All students are assigned a computer Wildcat e-mail account. It is the student’s responsibility to choose a confidential password for the account immediately. *Communication from the nursing program and individual faculty to the student will occur through the Wildcat e-mail account only*, unless associated with course work.
   b. Due to FERPA regulations, personal e-mail addresses will not be recognized. However, a student can forward e-mail from the student’s Wildcat mail to his/her personal e-mail account.

2. **Learning Management System:**
   a. Communication related to course work is conveyed through the online learning management system.
   b. Additional resources to enhance learning are embedded in courses.

3. **Financial Aid/Scholarships:**
   a. All WSU Nursing students, no matter the campus location, obtain Financial Aid from the WSU Financial Aid Office. Instructions on how to apply for FAFSA and financial aid and scholarships, as well as applications, are found at [www.weber.edu/financialaid/apply.html](http://www.weber.edu/financialaid/apply.html). WSU Financial Aid and Scholarship Application opens September 1. The priority deadline for completion of FAFSA is May 1.
   b. In order to be eligible for any WSU or Nursing scholarships, students must complete the FAFSA and WSU Financial Aid and Scholarship applications every academic year. Students can apply for financial aid anytime. However, to ensure that funding is available for the beginning of the semester, students should apply by the established deadlines. Students will not be considered for any scholarships if the FAFSA and WSU Scholarship applications have not been completed. Students will be notified through their WSU student email account if any additional information is required for a specific scholarship.
   c. If students are awarded a scholarship, notification will be made by the Financial Aid/Scholarship Office through the student Wildcat e-mail account.
d. Any questions regarding School of Nursing scholarships may be submitted to Marguerite Simmons via email at msimmons1@weber.edu.

3. Nursing Organizations and Activities:
   a. All students are encouraged to participate in professional activities and join their respective professional organizations: The National Student Nurses Association (NSNA) and the Utah Student Nurses Association (USNA). A faculty member will serve as advisor for NSNA/USNA on each Nursing-program campus. Students in the BSN and MSN programs are strongly encouraged to join and participate in Utah Nurses Association (UNA) and American Nurses Association (ANA).
## SECTION VI: STUDENT ACADEMIC/BEHAVIORAL DOCUMENTATION FORM

Weber State University School of Nursing

Academic/Behavioral Documentation Form

<table>
<thead>
<tr>
<th>Student Name:</th>
<th>Faculty:</th>
<th>Date:</th>
</tr>
</thead>
</table>

This document represents a binding, written agreement between the nursing program and the student that identifies the following:

1. Unsatisfactory student performance.
2. A written plan for correction of unsatisfactory student performance.
3. Documentation of student’s performance related to plan of correction.

Documentation of all student contracts will remain as a permanent record in the student’s School of Nursing academic file.

<table>

</tbody>
</table>

Description of unsatisfactory student performance (attach a separate page if needed):

Written plan for correction of unsatisfactory student performance (attach a separate page if needed):

I understand the terms of this agreement and understand that failure to fulfill the identified plan for correction may result in either suspension and/or expulsion from the WSU School of Nursing. Furthermore, I have been informed of my WSU student right to due process and have been provided information regarding WSU student process procedures.

SECTION 1: GENERAL GUIDELINES FOR BSN NURSING STUDENTS

A. The SON Student Handbook is listed as required text for all students and can be accessed online. Students are responsible for understanding the information provided in this handbook. Students are then accountable for following the guidelines and policies outlined.

B. All RN-BSN courses must be passed at the 80% (B-) level. A UW grade constitutes a failing grade. All non-BSN courses must be passed with a 73% (C) or above. Students are allowed to repeat only one BSN course. After the second BSN course failure, students will be dismissed from the program. Students will then need to wait one year before applying for readmission.

C. In completion of scholarly work, students are required to format course assignments, as appropriate, using the most current edition of the Manual for the American Psychological Association publication guidelines (APA format).

SECTION 2: COURSE DELIVERY

Hybrid Delivery
The BSN Program uses the “hybrid” (blended) method of course delivery. The hybrid teaching-learning modality supports the accomplishment of the program goals employing a combination of the traditional face-to-face classroom pedagogy combined with asynchronous online learning activities and faculty-student interaction. This teaching format allows for the convenience of online classes balanced with in-class interaction with professors. The hybrid format is offered at both the Ogden and Davis campuses.

1. Hybrid is a combination of face-to-face and online delivery of instruction.

2. Students will attend four on campus face-to-face meetings per semester. Students may request extra individual or small group time with faculty as needed.

3. Attendance on the first day of campus class is mandatory. This meeting provides important instruction and guidance for the course.

Online Delivery

1. The BSN program is also available in an online course delivery model. Online pedagogy combines with asynchronous online learning activities and online faculty-student interaction.

2. At this time, online program offerings are limited to students living 50 miles or more from the Ogden campus or in designated outreach sites.
3. In some online courses, proctored exams are utilized. Online student’s need to identify a location which is recognized by WSU as a specified proctoring site and follow procedures related to proctoring of exams. Any expense incurred is the responsibility of the student and not the School of Nursing or BSN program.

SECTION 3: BSN PROGRAM REQUIREMENTS/OVERVIEW

A. Admission
   1. Admission to the BSN program is based upon official acceptance granted by the BSN admissions committee. Applicants must hold a valid unencumbered RN license in the State of Utah or be eligible to complete NCLEX at time of application. Specific application requirements and deadlines can be obtained from the office of the Dumke College of Health Professions Admissions.
   2. Pre-requisites through Continuing Education: The School of Nursing has established the following guidelines for students planning to take nursing program pre-requisite course work through a distance learning program:
      * The courses must be completed and the grade must be posted two weeks prior to the start of the nursing program/semester.
      * Nursing deadlines override all distance learning guidelines.

B. Registration
   1. After admission, students will coordinate with the BSN Program secretary. The secretary will ensure that all portfolio documents are complete and will then provide departmental approval for registration. All students must have departmental clearance prior to actual registration.
   2. If BSN courses are full, students will be assisted in making other course selections.

C. Declaring Part-Time, Full-Time, or Inactive Status
   1. Full-Time Status: When students are accepted into the BSN Program, they may elect full-time status. Full-time requires students to complete the BSN Program in two (2) semesters.
   2. Part-Time Status: When students are accepted into the BSN Program, they may elect part-time status. Part-time requires students to complete the BSN Program in a maximum of six (6) semesters. Students who fail to complete the program in this timeframe will be dismissed from the program and will be unable to reapply.
   3. Inactive Status: Students must complete their first semester in the BSN program to be eligible for inactive status. When ready to resume BSN course work notify the Administrative Assistant/BSN Advisor. Inactive status is considered a period of one year.
Students who are admitted to the program, but fail to register for classes, or elect to stop taking classes will be withdrawn from the nursing program.

Students who change status may find new and/or additional program requirements necessary if curriculum changes have occurred while on an inactive or involuntarily withdrawn status.

4. **Full-Time To Part-Time:** Changing from full-time to part-time status requires a notification to the Administrative Assistant/BSN Advisor.

It is the students’ responsibility to withdraw from their courses. When a student withdraws from a course, the student contacts the Administrative Assistant/BSN Advisor via email.

**E. Graduation**

1. Students must complete 28 credit hours for the BSN program. Twenty five credit hours will be taken through the BSN nursing program and 3 credit hours will be taken through an upper division elective outside of the nursing program.

2. General Education Requirements: Students with an AS or BS have usually completed all general education requirements. However, all students are required to complete the University general education requirements.

3. Residency Requirements: Students must take a minimum of 30 credit hours through Weber State University.

4. Upper Division Requirements: Students must complete 40 upper division hours. Twenty eight hours will be earned as part of the BSN program. Eleven credit hours from a student’s AD program will be grandfathered from lower division to upper division credits.

5. Total Hour Requirement: Students must complete a total of 120 credit hours.

6. Students are required to complete course work for the BSN program within six (6) semesters of official admission to the BSN program. This requirement refers to both full-time and part-time students.

**SECTION 4: CURRICULUM PATTERN**

**Semester 1**

<table>

NRSG Elective  (3)
Total Hours:  12

Semester 2
NRSG 4300  (3) Healthcare Policy and Decision Making
NRSG 4400  (4) Population Health in Nursing
NRSG 4500  (3) Nursing Management and Leadership
NRSG Elective  (3)
Total Hours:  13

3 Credit Upper Division Elective
All students must take an additional 3 credit upper division elective outside of nursing.

Total Program Hours: 28

Nursing Electives
NRSG 4045  (3) ELNEC: End-of-Life Nursing Education Consortium
NRSG 4050  (3) Nursing Assessment
NRSG 4060  (3) Oncology Nursing
NRSG 4070  (3) Threats and Crises: Nursing Response
NRSG 4080  (3) Nursing: High Risk Adult
NRSG 4090  (3) Nursing: High Risk OB/Pediatric Patient
NRSG 4700  (3) Forensic Nursing
NRSG 4392  (3) Principles of Care Management
NRSG 4840  (3) Honors Seminar in Nursing (Permission Required)

SECTION 5: ADVISEMENT POLICY & PROCESS

A. Student Responsibilities:
   1. Review advisement list and determine name and email of personal faculty advisor.
   2. Go to WSU student portal. Follow directions provided to access Cattracks.
      a. Go to www.weber.edu and choose current student to log into the student portal. Use Wildcat ID and password to login. If you have problems with your Wildcat ID or password, call computing services at 801-626-7777.
      b. Once you are logged into your student portal, go to the Student Services tab. If you do not see the Student Services tab, contact computing support at 801-626-7777. Locate the box with the title “Cattracks Degree Evaluation and Planning Tool.”
      c. Type in your W# or click on the “Find” box to search by name. The degree evaluation information will appear. This provides you with what classes you have left to take within the major.
3. Review own graduation records. Complete two copies of the BSN Graduation Evaluation Record. Keep one for yourself and prepare the other for your faculty advisor.

4. By week four of the semester, contact your advisor stating that you have completed the review and detail any identified problems. It is important that you allow time for problems to be resolved.

5. This process should be repeated each semester until you graduate.

SECTION 6: RECEIVING PROGRAM INFORMATION

A. Students will receive program information via their Wildcat email address and the BSN Student Bulletin Board. Students are expected to frequently access and review this information.

B. Each student enrolled in the BSN program is required to establish and maintain a Wildcat e-mail address. This will be the only electronic option for receiving email with information regarding the program. Please set up your Wildcat e-mail account by going to http://departments.weber.edu/it/eservices/ and following the links and instructions. If there are any questions or concerns about this, please contact computing support at 801-626-7777. Please set this e-mail address up ASAP and check it often in order to receive program information in a timely manner.

C. The BSN Student Bulletin Board can be accessed by going to weber.edu/nursing

SECTION 7: SCHOLARSHIP INFORMATION

B. In order to be eligible to apply for a School of Nursing scholarship, nursing students must have successfully completed or be currently enrolled in their first semester of their nursing program to apply for the upcoming semester. Please note that prerequisite courses are not considered nursing courses.

C. Submission dates are:
   October 1-15 for spring semester
   January 1-15 for summer semester
   March 1-15 for fall semester

D. Nursing scholarships may be based on financial need, GPA, and community service performed.
E. Please check the nursing bulletin for more information regarding further requirements.  
https://www.weber.edu/Nursing/happening/bulletinboard.html

F. Any scholarship questions may be submitted to Marguerite Simmons Scholarship Committee Chair, email: nursingscholarships@weber.edu

SECTION 8: CHALLENGE EXAMS

1. Exams are only given during the specified exam periods for each semester. Challenge examinations are instructor developed tests that are specific to WSU Nursing Baccalaureate curriculum.

2. The challenge examination must be passed at 80% or higher.

3. Nursing 4500, Management and Leadership in Nursing is the only course that can be challenged. The challenge exam cannot be taken if a student has previously registered for NRSG 4500.

4. Challenge Exams are only given during the first week of October and March.

5. A challenge exam can only be taken one time. If student does not pass the exam, fees will not be refunded.

A. Challenging Nursing 4500 Management and Leadership in Nursing

To meet the course challenge requirements for Nursing 4500, students must have prior experience and knowledge related to nursing management and leadership concepts. The student must meet criteria and requirements related to minimum work experience in a nurse manager position, validated through supervisor documentation and schedule a one-on-one interview with the faculty prior to taking the challenge exam.

Documentation
1. Letter from supervisor verifying your position title and years in the position.
2. Updated resume or vitae.
4. Five (5) years of experience in a nurse manager position. This manager position must have 24/7 accountability for a patient care unit, including the job functions of hiring, disciplinary action, budget planning and resource allocation, staffing and scheduling and overall patient care delivery.

B. Procedure for Taking a Challenge Exam
1. Review Student Handbook to confirm specific course criteria. Contact the BSN Secretary at (801) 626-6122 or tiffanybennett@weber.edu, to make arrangements to take the exam. Obtain an Application for Credit form.

2. Gather letters and other documentation as listed above.

3. Submit documentation to the BSN secretary a minimum of three weeks prior to the exam week. The secretary will forward the information to the identified faculty member for review. Submit Application for Credit form.

4. Once the student is approved to take the challenge exam, they must obtain the signed Application for Credit form from the BSN secretary and take it to the WSU cashier and pay the fee. The form will be stamped as a receipt for verification of payment. If student does not pass the exam the first time, they must pay the testing fee again. Bring the stamped form back to BSN Secretary who will give the student a copy to take to the testing center on test day. The original will be held by the BSN secretary until testing has been completed.

5. Complete challenge exam in the approved testing center. Date and time for taking the test will be determined by the nursing faculty.

6. The student will be notified of challenge exam score by the identified faculty member.

7. When the student passes the challenge exam, the BSN secretary will forward the Application for Credit form to the Records office.

8. Appropriate upper division credits for the course will be given. Letter grades are not given. Credit given will not be considered for residency requirements.

SECTION 9: DEPARTMENTAL HONORS IN NURSING

Nursing students may seek “Departmental Honors in Nursing” while in the nursing program. The honors option allows students the opportunity to have an expansion of study and knowledge as they work toward their “capstone honors project.” Faculty guide and mentor students through their honors work.

Nursing students must qualify for, and be accepted into, the W.S.U. Honors Program to participate in the School of Nursing Honors program. They must also complete the requirements for “Departmental Honors in Nursing” which includes completion of “Progression Honors work” as well as completion of their Capstone Honors Project in Nursing 4840 “Honors Seminar in Nursing.” Nursing honors students will be recognized as honors graduates in W.S.U. graduation ceremonies.

Department of Nursing Honors Requirements
Nursing students may seek “Departmental Honors in Nursing” while in the nursing program. The honors option allows students the opportunity to have an expansion of study and knowledge as they work toward their “capstone honors project.” Faculty guide and mentor students through their honors work.

Nursing students must qualify for, and be accepted into, the W.S.U. Honors Program to participate in the School of Nursing Honors program. They must also complete the requirements for “Departmental Honors in Nursing” which includes completion of “Progression Honors work” as well as completion of their Capstone Honors Project in Nursing 4840 “Honors Seminar in Nursing.” Nursing honors students will be recognized as honors graduates in W.S.U. graduation ceremonies.

**Department of Nursing Honors Requirements**

1. Maintain cumulative GPA of 3.5 or higher.
2. Obtain a final grade of “A” or “A-” in all nursing course work.
3. Complete all Progression Honors Work requirements (prior to registering for Nursing 4840 “Honors Seminar in Nursing”), and obtain approval of completed work by an honors advisor. Progression honors work should advance and / or compliment the capstone honors project (completed in NRSG 4840).
   - First semester B.S.N. courses - Complete Progression Honors Work
   - Second semester B.S.N. course work – Register for NRSG 4840 and complete capstone honors project.
4. Final semester of BSN program, register for NRSG 4840, “Honors Seminar in Nursing.” The focus of this course is to complete the capstone honors project. All students will present their projects to a community audience in some manner as a requirement for NRSG 4840. Most students will prepare a poster presentation or a short oral presentation for the Honors Banquet.
5. Students must earn an “A” grade in Nursing 4840 to qualify to graduate with Departmental Honors in Nursing.
6. **Required:** Attend Nursing Honors Orientation and / or meet with the nursing department honors chair (London Draper Lowe) upon first entering the BSN program (during first week of classes) and declare intent to obtain departmental honors.
   - Complete and submit Progression Honors contracts by Week 3 of the starting semester (honors contracts obtained during orientation).
7. Submit application (online) for acceptance into the W.S.U. Honors program.
8. Identify an honors track – (choose one): Service-Learning Track, Scholarly Paper Track, or Research Track.
   - Submit abstract / outline of proposed capstone honors project (“Deciding on an Honors Project”) during Progression Honors Work.
9. Maintain honors expectations in academic, professional, and student conduct. See WSU School of Nursing Student Handbook. Honors students must not be on a behavioral contract for misconduct.

**Note:** Honors students may choose to enter their projects in the W.S.U. Undergraduate Research Conference held each spring on campus. Winners in the competition receive cash awards and may advance to a National competition. Students may also choose (if
appropriate) to submit their work for publication in Ergo – W.S.U. Undergraduate Research Journal.

SECTION 10: STUDENT NURSING ORGANIZATIONS

1. SIGMA THETA TAU INTERNATIONAL, NU NU CHAPTER
   Students who have completed the first semester of BSN program and have demonstrated scholastic achievement (GPA 3.5 or better) may be invited to membership. This is a one-time invitation. Application and membership information are available from Nursing Program Honor Society Faculty Counselor.

2. UTAH NURSES ASSOCIATION (UNA)
   Students are encouraged to join the Utah Nurses Association (UNA) and to participate in other professional organizations (ANA) and activities.

3. WESTERN INSTITUTE OF NURSING (WIN) & WESTERN SOCIETY FOR RESEARCH IN NURSING (WSRN)
   All nurses or nursing students matriculated in degree granting programs are eligible to become members of WIN and its research society WSRN.

AGREEMENT

I, (please print) ________________________________________, have read the policies in the Nursing Student Handbook for the School of Nursing and BSN Nursing Program. I understand that I will be given the opportunity to have questions concerning said policies answered by the Student Affairs Coordinator, Campus Coordinators, or BSN Program Director at orientation.

I understand that, as a student in this program, if I need further clarification of the policies, I am free to ask the Student Affairs Coordinator, Campus Coordinators, or BSN Level Director and faculty throughout the year.

I understand that any deviation from the standards in the handbook is cause for counseling procedures and/or dismissal procedures.

I shall abide by the policies as a student in the program.
