Disclaimers: WSU does not discriminate on the basis of race, color, 
national origin, pregnancy, genetics, age (over 40), disability, 
religion, sex, sexual orientation, gender identity/expression, veteran, 
avtive military status, and other classifications protected by law 
in its programs and activities. Information is available from, and 
discrimination and harassment complaints may be filed with, 
the Executive Director of AA/EO, AA-EO@weber.edu, MA 101, or 
801-626-6239.

Students accepted into the nursing program may be exposed to 
bloodborne pathogens during their time in the program. All admitted 
applicants will be required to complete a mandatory background check 
and drug screening. Admission to the program is contingent upon 
submission of a satisfactory background check and a negative drug 
screening. If you have a record of convicted criminal actions, it may 
affect your eligibility for admission to the WSU nursing program.

Physically challenged and learning-disabled students must register 
with the disability office prior to starting the nursing program if special 
assistance is required. Please call 801-626-6413.

LEARNING TODAY ... LEADING TOMORROW

weber.edu/msn
For over 65 years, Weber State University’s Annie Taylor Dee School of Nursing has educated knowledgeable and skilled nursing professionals with expertise in a variety of nursing roles. The Doctor of Nursing Practice - Family Nurse Practitioner (DNP-FNP) degree prepares you for the next step in your dream career.

What is a DNP-FNP?
The changing demands of the nation’s complex healthcare environment require the highest level of scientific knowledge and practice expertise to assure quality patient outcomes.

DNP-prepared nurses facilitate nursing interventions that influence healthcare outcomes. They assume advanced leadership roles advocating for, developing and implementing healthcare delivery changes at the organizational/systems level. DNPs also provide interdisciplinary leadership, develop and implement healthcare policies, and promote standards of patient care and safety.

Family Nurse Practitioners (FNPs) are independent primary care providers who care for individuals, families, and communities. They are practice leaders and autonomous clinicians who translate research into practice. FNPs are advocates and consultants influencing direct and indirect patient-, organizational- or systems-level healthcare outcomes.

Why Earn your DNP-FNP at WSU?
Our DNP-FNP students progress from the RN role to that of a clinical primary care practitioner with expert leadership knowledge. Our DNP degree combines primary care clinical knowledge and skills with leadership education.

Our hybrid delivery format, FNP hands-on skill labs, and variety of clinical care and systems practice settings allow you to fit the program into your busy life. DNP courses are 100% online.

What You’ll Learn
Our DNP-FNP program combines skills for family practice primary care provider (FNP) roles with DNP leadership education and application for interdisciplinary collaboration.

Courses cover the following:
• Evidenced-based practice and knowledge translation
• Analysis and development of appropriate and timely healthcare policy
• Assurance of population health through provision equitable healthcare
• Promotion of health and wellness.
• Integration of informatics and technology into practice
• Participation in quality improvement processes for optimization of individualized care or healthcare systems operations

As an FNP clinician, students use diagnostic reasoning to diagnose, treat and manage acute and chronic illness.

National Certification
Graduates are eligible to sit for the national FNP certification once they graduate and all FNP core courses and clinical hours are attested to by WSU.

Students may choose certification from:
• The American Academy of Nurse Practitioners Board Certification (AANP-BC) or
• The American Nurses’ Credentialing Center (ANCC).

Once students pass the national certification exam, they are eligible for the Advanced Practice Registered Nurse (APRN) license and practice as an FNP.

Employment Opportunities
As a key part of the healthcare industry, DNP-FNP graduates are in high-demand. For five decades, FNPs have improved healthcare outcomes while providing access to safe quality care. Doctorate-prepared FNPs lead the future of healthcare provision and influence organizational/systems changes for optimal healthcare outcomes.

Pay-scale named WSU the top Utah institution for return on investment.
