Our vision for the School of Nursing is to educate and prepare distinguished nursing professionals who are recognized for excellence and passionately engaged in the profession of nursing.
The PN to RN offers working practical nurses, or those eligible to be licensed, an opportunity to enhance their skill base while advancing their careers and earning potential in the health care system.

Weber State University’s (WSU) PN to RN Nursing Program is designed to prepare graduates for entry-level clinical practice as RNs. The program is structured for graduates to receive either an AS or an Associate of Applied Science Degree. Graduates of the PN to RN are eligible for registered nurse licensure upon successful completion of the National Council of State Boards of Registered Nurses exam (NCLEX-RN).
