The Utah Public Health Association is announcing the Call for Abstracts for the 2018 Annual Public Health Conference to be held April 11-13, 2018 at the Salt Lake Marriott Downtown at City Creek in downtown Salt Lake City. We are seeking innovative proposals for topics relating to all areas of public health.

Submission options:

- **Program / Research Presentation** (30 or 60 minutes): Delivered during breakout sessions at the conference, oral presentations are intended to provide attendees a synopsis of a public health program, initiative, evaluation strategies, or other relevant research. Presenters should ensure that time is available for Q&A during their session.

- **Poster Session** (pre-designated breakout times): Poster sessions are intended to provide a visual presentation of program or research findings by displaying graphs, photos, diagrams, and descriptive text. The authors will hold discussions with attendees who are circulating among the posters during the designated poster session time frame. The presenter(s) should remain by their poster for the duration of the breakout session to answer questions.

All abstracts must be submitted online. An online form will walk you through the process. Link directly through the conference website at: [www.upha.org/conference/abstracts](http://www.upha.org/conference/abstracts). Authors must provide complete and accurate contact information to be notified of abstract status.

You do not have to be a member of UPHA to submit an abstract. If your abstract is selected for a presentation or poster session, you and any co-presenters who will be attending must each register and pay for the conference, at the reduced presenter registration fee.

Refer to the conference website for additional information: [www.upha.org/conference](http://www.upha.org/conference).

*We welcome your submissions and look forward to your contribution at the 2018 Utah Public Health Conference.*

**Abstract Deadline:** January 22, 2018, 11:59pm (MST)

**BENEFITS FOR STUDENTS:**

1. Professional Experience
2. Resume Builder
3. Recognition/Share Your Research
4. Networking

*UPHA: “Working for a healthier Utah through advocacy, education and collaboration with public, private and community partners.”*
