I am the owner of Advanced Integrated Medical Center. We have an office in Idaho, and we will be opening one soon in Cache Valley Utah. We are looking to hire a Nurse Practitioner in Cache Valley by the first of June. We will also be needing another Nurse Practitioner in Blackfoot, Idaho as soon as possible. We are looking for an individual that has great interpersonal skills, is not afraid of hard work and is teachable. These offices are fully integrated which means we utilize several evidence-based treatments including trigger point injections, IM injections, joint injections, mesenchymal stem cell injections, PRP injections, exercise therapy, chiropractic care, IV vitamin therapy, nutritional counseling, and medical weight loss. We do not and will not be prescribing any narcotics in these offices. We are fully aware that most applicants are not experienced in some of these treatments. When we find the right candidate(s) we are willing to train them. We are looking for someone that would be willing to work part time at first but within in a few months can possibly work full time. We are willing to pay the going rate for the locations we are located with the possibility for advancements in pay as the business increases. If you are interested or need more information please call Dee Stevens at 435-764-1775 or email me at drdeestevens@gmail.com.
