

WEBER STATE UNIVERSITY SCHOOL OF RADIOLOGIC SCIENCES

LIMITED PRACTICAL RADIOGRAPHY LICENSE – Arizona Cohort

SCHOOL OF RADIOLOGIC SCIENCES
Dr. EZEKIEL R. DUMKE COLLEGE OF HEALTH PROFESSIONS
WEBER STATE UNIVERSITY
OGDEN, UTAH 84408-3925

Department Chair.....Robert Walker, PhD

Faculty.....Taylor Ward, MSRS

To meet Arizona State requirements R12-2-202, students must complete a minimum of 210 hours of didactic training and 480 hours of clinical training. The course of study should be no less than 6 months or more than 24 months in length. The Weber State School of Radiologic Sciences Limited Practical Technologist Program – Arizona Cohort fulfills these requirements. The LPT-Arizona Cohort will consist of 2 semesters that incorporate both clinical and didactic training.

Classes will be provided via Lecture capture, and clinical visits from Weber State Faculty will occur periodically. Students will be responsible for completing required coursework and examinations.

It is the responsibility of the student to arrange a clinical site for clinical education (24 hours per week). Upon approval from the site, students must provide the contact information to Weber State in order to set up affiliation agreements between Weber State University and the clinical site. The affiliation agreement must be established prior to beginning clinical education.

*In the case that students choose to continue their associates of Radiologic Technology (AAS) degree through Weber State University, classes taken in the LPT- Arizona Cohort will be credited towards the degree. An additional 3 semesters (Summer, Fall, Spring) would be required to complete the full Radiologic Technology Program and qualify for ARRT registration and certification. Students who wish to become ARRT registered and certified are encouraged to continue the full Radiologic Technology Program.

PROGRAM DESCRIPTION – LPT ARIZONA COHORT

DIDACTIC TRAINING (17 credit hours):

FALL SEMESTER

RADT 1022- Introduction to Radiologic Technology (2 credits)

RADT 1303- Principles of Radiographic Exposure I (3)

RADT 1502- Radiographic Anatomy & Positioning I (2)

RADT 1601- Laboratory Experience (2)

RADT 2992- Seminar (1)

SPRING SEMESTER

RADT 1512- Radiographic Anatomy & Positioning II (3)

RADT 1621- Laboratory Experience (2)

RADT 2043- Patient Care and Assessment (2)

CLINICAL TRAINING (minimum 480 hours):

FALL SEMESTER

RADT 2861- Clinical Education (3)

24 hrs per week (total of 336 hours)

SPRING SEMESTER

RADT 2862- Clinical Education (3)

24 hrs per week (total of 336 hours)

COURSE DESCRIPTIONS – LPT ARIZONA COHORT

RADT 1022 INTRODUCTION TO RADIOLOGIC TECHNOLOGY

Program Orientation, elementary radiation protection, and basic procedures.

2 Credit Hours

RADT 1303 PRINCIPLES OF RADIOGRAPHIC EXPOSURE I

Theory of x-ray production; imaging production, and radiographic equipment.

3 Credit Hours

RADT 1502 RADIOGRAPHIC ANATOMY AND POSITIONING

Terminology, pathology, and radiographic positioning.

2 Credit Hours

RADT 1512 RADIOGRAPHIC ANATOMY AND POSITIONING II

Continuation of RADT 1502. Prerequisite: RADT 1502

3 Credit Hours

RADT1601 LABORATORY EXPERIENCE

Patient positioning and review of radiographic quality.

2 Credit Hours

RADT 1621 LABORATORY EXPERIENCE

Continuation of RADT 1601. Prerequisite: RADT 1601

2 Credit Hours

RADT 2043 PATIENT CARE AND ASSESSMENT I

Patient care and management in radiology.

2 Credit Hours

RADT 2861 CLINICAL EDUCATION

Experience gained in a healthcare facility.

3 Credit Hours

Prerequisite: Clinical site approval and affiliation agreement completed.

RADT 2862 CLINICAL EDUCATION

Continuation of RADT 2861

3 Credit Hours

RADT 2992 SEMINAR

Patient case studies and critical care situations.

1 Credit hour
