- Western Medicine Comparison
- Culture, History, and Traditions
May 6 - 18 Tentative dates subject to change

Program Overview
The Healthcare and Culture in China Study Abroad Program is a student favorite at WSU year after year. The program teaches students a unique mix of Chinese culture and traditional eastern medicine through tours and hands-on clinical experience. While on the Healthcare and Culture in China program, you'll experience the historic Great Wall, the Forbidden City, and Tiananmen Square. To earn full credit, you will need to attend four 2-hour workshop sessions before the trip, keep a daily journal of your experiences, participate in a post-trip discussion group, and compose an experiential paper based on pertinent experiences on the program. Student selection will be on a first come first service basis. The trip will take 24 to 30 students.
