WHY THIS PROGRAM BENEFITS YOU

The CATT program is designed to assist transitioning students in becoming acclimated to college lifestyle by:

- Guiding you through the registration process
- Directing you to the appropriate financial aid resources
- Providing tips and suggestions for improved communication with your teachers to ensure your success

BECOMING A CATT MEMBER

Our mission is to identify motivated college-bound students and pair them with Peer Guides to increase their success throughout the transition process.

- Students with disabilities struggle accessing the necessary accommodations to ensure success throughout their college experience.

- Peer guides positively influence the success of students with disabilities in college.

- As a volunteer organization facilitated by students with disabilities, transitioning students will become peer guides for future participants.

You will be paired with a current WSU student with disabilities who has successfully transitioned to the college life. The Peer Guides will assist the students with:

- Answer your questions
- Direct you to the appropriate office/personnel for additional assistance
- Provide support in general
- Set up additional informal meeting times

What to Expect:

- You will be provided a Survival Kit which contains general school supplies that every student needs.

- You will be introduced to technology that benefits students with disabilities.

- You will meet with a peer guide and will learn how to use and maximize available accommodations and technology.

- You may have access to tablets, recorders, and other technology.

What You Will Get:
