Steele Memorial Medical Center (SMMC) has an exciting opportunity for a MLT/MLS to work full-time in our hospital laboratory. As a generalist, you would work in all areas of the laboratory including phlebotomy, blood bank, and some microbiology. Our Laboratory services our Emergency Department, In-Patients, Rural Health Clinic, surrounding Nursing Homes, and Outpatients. It’s a great opportunity to stay busy with a little more patient interaction than you would normally see at a larger facility.

Essential Duties and Responsibilities:
- Perform patient testing in all areas of the lab.
- Proficient at drawing blood
- Perform Calibrations and QC as required along with appropriate follow up and corrective actions.
- Perform required maintenance and analyzer repair as needed.
- Have good communication, customer service, and computer skills

About SMMC:
Steele Memorial Medical Center (SMMC) is an 18 bed Critical Access Hospital and Rural Health Clinic located in scenic Salmon, Idaho on the famous “River of No Return.” Our hospital was started in 1950 and a clinic was added about 20 years ago. We currently employ 3 primary care physicians, three nurse practitioners and two PA’s in our primary care clinic. Our adjacent specialty care clinic includes an employed general surgeon and OB/Gyn. We also have visiting specialists in orthopedic surgery, cardiology, oncology, urology, audiology, and will soon be adding dermatology, podiatry and a new pain clinic. Our lab continues to acquire new state of the art instrumentation such as Dimension EXL, Microscan, Illumigene, Sysmex CA-560, Sysmex XT-4000. We are seen as the gem of our small community, ensuring our residents are healthy and strong to participate in the many outdoor recreation options available in and around our area. SMMC has the distinction of being one of the most remote hospitals in the lower 48 states. Our service area borders the Frank Church Wilderness Area the second largest protected wilderness in the contiguous United States. This beautiful mountain valley offers unlimited outdoor recreational opportunities such as hiking, mountain biking, hunting, fishing, skiing and white-water rafting.

Requirements:
To perform the job successfully, an individual should:
- Four year college or university program degree; or two to four years related experience and/or training; or equivalent combination of education and experience.
- Accredited by a national accreditation agency such as ASCP.
- Ability to work well with others in a team environment.

Schedule:
Full Time, Monday – Friday 06:00 am to 3:00 pm. May occasionally be asked to work different shifts/days during contingencies.

Offer Details:
The successful candidate will be employed by SMMC and provided a competitive salary and full-time benefits package. We hope to fill this position immediately.
