

Caregivers of Tomorrow Sponsorship

Weber State University

The **Medical Laboratory Sciences (up to \$10,000)** students spend most of their time in a lab during a daily work day. These scientists and students play a central role in the detection, diagnosis and treatment of disease. Choosing to follow your path here at Weber State will put you above the rest, with a pass rate of 88% on the MLS Certificate as well as 97.5% with the MLT certificate.

Radiologic Sciences (up to \$10,000) is a medical field that uses ionizing radiation, sound waves, and magnetic fields to produce medical images for diagnostic purposes or to treat diseases by combining medical procedures with technology

Respiratory Therapy (up to \$10,000) students have the opportunity work with patients in a wide variety of clinical and community settings, such as: newborn intensive care, adult critical care, emergency care and air/ground transport. All with the goal of helping their patients just breathe! In addition, Respiratory Therapists treat and education patients with asthma, emphysema, and rehabilitation of patients with diseases that require long-term breathing retraining.

Each of these programs offer stackable degrees and opportunities to advance your education.
