PROJECT INFORMATION SHEET

Title of Study: Butter Me Up: The Effect of Emotional Contagion on Taste Perception.

Experiment Open Date: 3/15/2017  Experiment Close Date: 3/15/2017

(IRB) Approval Number: 17-PS-02

Participation Credits: 1 credits

Time (duration): Approximately 10-15 minutes

Brief Description of Study:
You are invited to participate in a research study where you will be asked to determine the difference between salted and unsalted butter on bread. You will also take a post questionnaire.

Participation Criteria
Students between the ages of 18 to 69 may participate in this study. Those with allergies to any of the food provided (bread and butter) will be excluded from participating in our study.

Location
Research will be conducted on the third floor of Weber State University’s Social Science Building Room 347. Students may sign up for participation in one of three research groups. (Listed on the sign-up sheet)

Researchers:
Dr. Aaron Ashley (psychology department)
Peter Howey (Psychology)
Kimberly Thongrit (Psychology)
Rachel Jolly at (Psychology)
Rachel Cunningham (Psychology)
Becky Thornton (Psychology)

Questions?
Please contact Dr. Ashley at aaronashley@weber.edu if you have questions. Please include the Study Number in the subject line of the email.
