We have openings for clinical assistants (bachelor's degree is required). Please let your family and friends know. They can apply on Indeed.com or email their resume directly to athr1@itherapycenter.com.

Clinical Assistant

Job Description

We have immediate openings for a full time Clinical Assistant position at The OCD & Anxiety Treatment Center in the Bountiful, Utah area (15 minutes north of Downtown Salt Lake). We are an Intensive Outpatient Program (IOP) for Obsessive Compulsive Disorder and other anxiety spectrum disorders. We provide specialized treatment through Behavioral Skills Training in order to help relieve and strengthen children, teens and adults.

This is a great position for individuals who are pursuing an advanced degree in Clinical Therapy, Psychology or Social Work. You will be providing clinical support by tracking and monitoring clients face-to-face during their treatment work as assigned, supporting and encouraging the client, and providing gathered feedback to therapists regarding the client’s progress. If you have a passion for helping youth and adults, and enjoy working in the mental health field this position is for you!

What is most important in this position is that you want to work with youth and adults and care about their success. Other important qualities we look for are: good time management, self-directed, compatible with a fluxing work environment (sometimes structured, sometimes spontaneous), and a team player.

Job type:

- Monday through Friday 8:00 am to 5:00 pm

Requirements:

- Positive Person
- Outgoing
- 6 months to 1 year of experience working with youth or Adults.
- Positive and hard worker.
- Familiar with Google Docs
- Good time management
- Self-directed
- Compatible with fluxing work environment (sometimes structured, sometimes spontaneous)
