Title of Study: Puzzles and Beats

Experiment Open Date: November 7, 2017  Experiment Close Date: December 1, 2017

(IRB) Approval Number: 17-SS-224

Participation Credits:
2 credits for Psychology 1010 students. Students from other psychology courses will get credit based upon their instructor’s discretion.

Time (duration):
Approximately 30 minutes

Brief Description of Study:
Each student will be given 15 minutes to complete as many word search puzzles as possible. Participant’s heart rate and blood pressure will be measured using a BioPak arm compressor.

Participation Criteria:
Weber State University students enrolled in Psychology 1010 or other psychology course(s).

Location:
Participants will meet in various rooms in the Science Lab at Weber State University Ogden campus.

See Sign-up Sheet.

Researchers:
Dr. Aaron Ashley (psychology department)
Holly Bingham (psychology student)
Rachael Roller (psychology student)
Alex Florence (psychology student)

Questions:
Please contact Dr. Aaron Ashley at AaronAshley@weber.edu if you have questions. Please include the Study Number in the subject line of the email.
